*First and foremost, I am thankful to God for bringing me in the field of Geology & in this Department.*

*I express my heartiest sincere gratitude to **Professor Dhirendra Kumar Pandey**, who is an inspiring guide with a professional, scientific approach, and deep knowledge of the subject. His incredible zeal for research has always been a big motivation for me especially for last five years. I always enjoyed freedom with him to express new concepts and different approaches of research of the present work. I will always be thankful to him to introduce me in the field of palaeontology, stratigraphy and sedimentology and imbibed in me the thirst for knowledge.*

*In spite of his multifarious responsibilities and preoccupations he has been kind enough to check the specimens & thin sections, read the manuscript critically, rectified my errors, and his thoughtful criticism gave the ultimate shape to my thesis.
