Acknowledgements

All these years of my PhD program seem like a little moment. Extended, standing still. Just yesterday as if. The help, cooperation and support of many associated directly or indirectly enabled me to complete this arduous task. Many gave me a helping hand and it is my duty and privilege to express my deep sense of appreciation for them.

I will remain ever grateful to Dr. C. M. Gupta, Director, Central Drug Research Institute, Lucknow, for allowing me not only to pursue my research goals but also develop a scientific attitude. I thank the Institute administration for providing the necessary infrastructure for research. I sincerely wish to express my thankfulness to the Vice Chancellor and Dean, Bundelkhand University Jhansi for selecting me as a PhD student and allowing me complete this grueling task.

I feel the limitation of words from inside in trying to express my feelings for my supervisor Dr. Vinay Singh Chauhan, Assistant Professor, Department of Biotechnology, Bundelkhand University, Jhansi. Throughout my tenure, in different phases of theoretical and practical problems I always got the spontaneous help from him. I express my gratitude and sincere thankfulness to him for successfully completing my dissertation work with his intellectual guidance and constant inspiration.

I feel fortune to accomplish my research work under the dynamic guidance of Dr. Gautam Patit, Head and Deputy Director, Neuropharmacology Unit, Division of Pharmacology, Central Drug Research Institute, Lucknow. Right through my selection in the Ph.D. program, my endeavors at acclimatizing myself with the laboratory atmosphere and attitude, he always stood by me. Words are inadequate to express my heartful gratitude to him for illuminative guidance, constant inspiration, patience, encouragement, temperament and kindness to support me during ups and downs in the course of the study. Away from home, he was always there besides me, teaching, indulging and always showering with endless words and deeds of praise, love and hope. I shall always remain indebted to him for his constant fatherly touch.

I am thankful to Dr. Ram Raghurabir, Head, Division of Pharmacology, for his kind permission to utilize the facilities of the Division for my research work. I would also like to thank Dr. C. Nath for instilling in me the sense of intellectual competitiveness and also providing me
instant help whenever required. I am extremely grateful to all the distinguished scientists in the Division of Pharmacology for their keen interest and valuable suggestions rendered during the course of the study. Special thanks to Mr. D.N. Bhalla for teaching me the basic experiments of gastric ulcer studies and always providing me the support when I ardently needed them. I also thank Mr. G.P. Singh for their ready help and in providing all other requirements for doing my experiments. My sincere thanks to all the other staff especially Mrs. Pushpa Patnaik for her motherly caring attitude.

I would be failing in my duties if I do not express my thanks to Dr. Sudhir Srivastava, Head, Division of Toxicology, Dr. Sharad Sharma, Division of Toxicology, Dr. Rakesh Maurya, Division of Medicinal Chemistry Dr. P.K. Roy, Library, Verma Sir, Division of Toxicology and Mr. Karunesh Roy, animal house for their cooperation, valuable suggestions and pursuance in the fruitful completion of the study.

I sincerely thank Dr. Suraksha Agrawal, Head, Department of Medical Genetics, Sanjay Gandhi Post Graduate Institute of Medical Sciences, Lucknow for her help, valuable suggestions, concern and timely help in paving way for completion of my study. I thank her for providing me hands on training in different molecular techniques.

There are two persons, which need a separate mention, Mrs. Shashwati Palit and Dr. Bhanumati Chauhan. I would like to thank Mrs. Palit for her ever smiling greetings wherever and whenever we met during these years, for the delicious cuisines she always prepared in our get together and for an untold sense of belongingness that I always felt whenever I was with her. I would remember with utmost respect and fondness the way in which Dr. Bhanumati Chauhan steer me about the technicalities and other issues of the university matters and will always be thankful to her for her professional and personal guidance.

I thank Ministry of Health and Indian Council of Medical Research, New Delhi for providing me financial assistance during the tenure of this dissertation.

I fail to gather appropriate words to express my special thanks to my companion Faisal Masood Khan for all his concern, love, help, care, encouragements, guidance and assistance provided during my entire period of stay at Lucknow. He is always the first person to give me his hand whenever I needed help. Starting from teaching me basics of molecular biology, he taught me so many techniques, thrown the light on my path of dissertation work and even typing as well as formatting of my whole thesis has been done by Faisal. Apart from my thesis work, he has been a great partner in my life. He is always besides me to support. Words are not adequate to thank.
Faisal for all he has done for me. My thesis could not have seen the light of the day without his help. Still, I do not want to thank him, because this word does not exist between us.

I was lucky to have senior colleagues who were always ready to help at times of need. I fondly remember the way Dr. Rakesh Kumar, Dr. Deepak Rai, Dr. Manish Banerjee, Dr. Amitava Das, Dr. Anantha Vijay Raghavan, Dr. Prashant, Dr. Priyanka and Dr. Soumya Saha made so many concepts clearer and techniques doable with lots of love intermingled with occasional rebukes.

Special thanks to my best friends Diya and Chimpu. Diya always lend me her hands at the time of need and lift my morale at the times of despair. Chimpu was always there with his undemanding care and spontaneous love and always took out time in spite of his being engrossed in his own priorities, both professional and personal. The togetherness that filled our hearts let us bear all the pressures and failures of life with smiles. The innocent love and regards tendered by Naila helped me to slip into the responsible role of an affectionate and helping sister.

This long journey would have been impossible but for wonderful company of my friends who were my family at Lucknow. The laboratory environment was always refreshing and conducive for research because of the presence of Vijay and Kran, my good friends with whom I shared lots of moments blended with love, care and even quarrels. I am grateful to be in association of Rishi, Rashmi, Sarika, Nileendra, Anuradha, Naveen, Rahul, Amita, Akha, Antima, vikas and Diya, for their care and affection during the entire stay. I am also thankful to my juniors Abhishek, Williams, Satyanand, Madhumita, Rohit, Sachin, Poofa Garg, Rahul, Ethika, Gunjan, Poofa Khan, Aanchal, Prasuja, Suresh and Shawon for their wonderful company in the Division. I am also thankful to all other friends of SGPGI Ashok, Vikky, Faheel, Aamna, Padma, Manorama, Piyush, Abbas, Meenal, Sudha di, Sandeep, and Amit, for always being there to help me and an especial thanks to Ranju mama for being there in one of the best moments of my life.

An especial word for my roommates and companions Sapna Di, Diya, Nimmi and Sutapa di for making the period outside the lab hours memorable. With their invaluable company I always felt home away from home. I owe my long enjoyable extinct in Lucknow to my lovable roommates and friends.

I am thankful to Chandra Prakash, Ram Sagar and Prem bhaiyya for providing me a clean glassware and environment to work. I want to thank Susheel Bhaiyya for his everytime ready help to me. I am also thankful to Kishori Lal ji for procuring me animals and helping me with animal handling.
God can not be with everyone all the times. That's why he made parents. A child can never thank his parents enough. He owes his very existence to them. My efforts will remain incomplete if I do not express my gratitude and indebtedness to my parents whose blessings stood by me at all odds and for their constant inspiration and encouragements and always patting at times of achievements and always correcting me at times of needs. It would have been impossible to reach the present destination without their support. I owe a lot to my sisters and brother-in-laws for their constant care and affection. I owe my brothers Honey and Mohi and my nephews Vishi and Avi for their love, which always gave me a reason to smile.

I pay heartful thanks to Amma, Papa, Teepu and Shobi for their love and concern. It would have been difficult without them to complete my task without their constant concern and care. Mention of my family is incomplete without Ankyr bhaiyu and Beer Bhai. I thank them for their everlasting love and care.

I am thankful to the God Almighty, for putting such wonderful people in my life and bestowing His Warmth and Affection through them.

Last but not least, I sincerely wish to express my gratitude to all the experimental animals for their silent sacrifice.

Poonam Dharmani
