

## LIST OF TABLES

Table No	Description	Page Nos.
<b><u>EAST ZONE -CALCUTTA</u></b>		
4.1.A.a.1	Mean body measurements of 200 respondents in Calcutta specific to trousers.	111
4.1.A.a.2	Height wise Class Intervals of respondents from Calcutta and their mean body measurements specific to trousers.	113
4.1.A.a.3	Waist wise Class Intervals of respondents from Calcutta and their mean body measurements specific to trousers.	114
4.1.A.a.4	Mean Ratios of waist and other body measurements of Calcutta- specific to trousers.	115
4.1.A.a.5	Height wise Class Interval categories for Calcutta and identification labels with percentage of respondents in each category.	116
4.1.A.a.6	Waist wise Class Interval categories for Calcutta and identification labels with percentage of respondents in each category	118
4.1.A.a.7	Correlation between height and other parameters among the respondents from Calcutta.	120
4.1.A.a.8.1	Standardized size chart of trousers for commercial application for regular fit. (155-159 cms.)	121
4.1.A.a.8.2	Standardized size chart of trousers for commercial application for regular fit. (160-164 cms.)	122
4.1.A.a.8.3	Standardized size chart of trousers for commercial application for regular fit. (165-169 cms.)	123
4.1.A.a.8.4	Standardized size chart of trousers for commercial application for regular fit. (170-174 cms.)	124
4.1.A.a.8.5	Standardized size chart of trousers for commercial application for regular fit. (175-179 cms.)	125

4.1.A.a.8.6	Standardized size chart of trousers for commercial application for regular fit. (180-184 cms)	126
4.2.A.a.1.1	Age of respondents	128
4.2.A.a.1.2	Monthly income of the respondents	129
4.2.A.a.2.3	Preference of Brands by the respondents	130
4.2.A.a.2.4	Factors influencing preference of brands	131
4.2.A.a.2.5	Preference of choice of outlets for purchasing branded trousers.	133
4.2.A.a.2.6	Factors considered important while selecting and purchasing branded trousers	134
4.2.A.a.2.7	Preferred trouser fit and waist position of wearing trousers	135
4.2.A.a.2.8	Style and cut most preferred in ready made trousers	136
4.2.A.a.2.9	Alteration of purchased branded trousers	137
4.2.A.a.2.10a	Purchase of branded trousers with the same waist size	138
4.2.A.a.10b	Reasons for purchase of branded trousers of different waist sizes.	139
<b><u>WEST ZONE - AHMEDABAD</u></b>		
4.1.A.b.1	Mean body measurements of 300 respondents in Ahmedabad specific to trousers.	142
4.1.A.b.2	Height wise Class Intervals of respondents from Ahmedabad and their mean body measurements specific to trousers.	144
4.1.A.b.3	Waist wise Class Intervals of respondents from Ahmedabad and their mean body measurements specific to trousers.	145
4.1.A.b.4	Mean Ratios of waist and other body measurements of Ahmedabad -specific to trousers.	146
4.1.A.b.5	Height wise Class Interval categories for Ahmedabad and identification labels with percentage of respondents in each category.	147
4.1.A.b.6	Waist wise Class interval categories for Ahmedabad and identification labels with percentage of	149

	respondents in each category	
4.1.A.b.7	Correlation between height and other parameters among the respondents from Ahmedabad.	151
4.1.A.b.8.1	Standardized size chart of trousers for commercial application for regular fit. (155-159 cms.)	153
4.1.A.b.8.2	Standardized size chart of trousers for commercial application for regular fit. (160-164 cms.)	154
4.1.A.b.8.3	Standardized size chart of trousers for commercial application for regular fit. (165-169 cms.)	155
4.1.A.b.8.4	Standardized size chart of trousers for commercial application for regular fit. (170-174 cms.)	156
4.1.A.b.8.5	Standardized size chart of trousers for commercial application for regular fit. (175-179 cms.)	157
4.1.A.b.8.6	Standardized size chart of trousers for commercial application for regular fit. (180-184 cms)	158
4.2.A.b.1.1	Age of the respondents	160
4.2.A.b.1.2	Monthly income of the respondents	161
4.2.A.b.2.3	Preference of Brands by the respondents	162
4.2.A.b.2.4	Factors Influencing preference of brands	163
4.2.A.b.2.5	Preference of Choice of outlets for purchasing branded trousers	165
4.2.A.b.2.6	Factors considered important while selecting and purchasing branded trousers	166
4.2.A.b.2.7	Preferred trouser fit and waist position of wearing trousers	167
4.2.A.b.2.8	Style and cut most preferred in ready made trousers	169
4.2.A.b.2.9	Alteration of purchased branded trousers	170
4.2.A.b.2.10a	Purchase of branded trousers with the same waist size	171
4.2.A.b.2.10b	Reasons for purchase of branded trousers of different waist sizes.	172

### **NORTH ZONE -LUDHIANA**

4.1.A.c.1	Mean body measurements of 300 respondents in Ludhiana specific to trousers.	174
4.1.A.c.2	Height wise Class Intervals of respondents from Ludhiana and their mean body measurements specific to trousers.	176
4.1.A.c.3	Waist wise Class Intervals of respondents from Ludhiana and their mean body measurements specific to trousers.	177
4.1.A.c.4	Mean Ratios of waist and other body measurements of Ludhiana -specific to trousers.	178
4.1.A.c.5	Height wise Class Interval categories for Ludhiana and identification labels with percentage of respondents in each category.	179
4.1.A.c.6	Waist wise Class interval categories for Ludhiana and identification labels with percentage of respondents in each category	181
4.1.A.c.7	Correlation between height and other parameters among the respondents from Ludhiana.	183
4.1.A.c.8.1	Standardized size chart of trousers for commercial application for regular fit. (155-159 cms.)	184
4.1.A.c.8.2	Standardized size chart of trousers for commercial application for regular fit. (160-164 cms.)	185
4.1.A.c.8.3	Standardized size chart of trousers for commercial application for regular fit. (165-169 cms.)	186
4.1.A.c.8.4	Standardized size chart of trousers for commercial application for regular fit. (170-174 cms.)	187
4.1.A.c.8.5	Standardized size chart of trousers for commercial application for regular fit. (175-179 cms.)	188
4.1.A.c.8.6	Standardized size chart of trousers for commercial application for regular fit. (180-184 cms)	189
4.1.A.c.8.7	Standardized size chart of trousers for commercial application for regular fit. (185-189 cms)	190
4.2.A.c.1.1	Age of the respondents	191
4.2.A.c.1.2	Monthly income of the respondents	192

4.2.A.c.2.3	Preference of Brands by the respondents	193
4.2.A.c.2.4	Factors Influencing preference of brands	194
4.2.A.c.2.5	Preference of Choice of outlets for purchasing branded trousers	196
4.2.A.c.2.6	Factors considered important while selecting and purchasing branded trousers	197
4.2.A.c.2.7	Preferred trouser fit and waist position of wearing trousers	198
4.2.A.c.2.8	Style and cut most preferred in ready made trousers	199
4.2.A.c.2.9	Alteration of purchased branded trousers	200
4.2.A.c.10a	Purchase of branded trousers with the same waist size	201
4.2.A.c.10b	Reasons for purchase of branded trousers of different waist sizes.	202

#### **SOUTH ZONE - COIMBATORE**

4.1.A.d.1	Mean body measurements of 300 respondents in Coimbatore specific to trousers.	205
4.1.A.d.2	Height wise Class Intervals of respondents from Coimbatore and their mean body measurements specific to trousers.	207
4.1.A.d.3	Waist wise Class Intervals of respondents from Coimbatore and their mean body measurements specific to trousers.	208
4.1.A.d.4	Mean Ratios of waist and other body measurements of Coimbatore -specific to trousers.	209
4.1.A.d.5	Height wise Class Interval categories for Coimbatore and identification labels with percentage of respondents in each category.	210
4.1.A.d.6	Waist wise Class interval categories for Ludhiana and identification labels with percentage of respondents in each category	212
4.1.A.d.7	Correlation between height and other parameters among the respondents from Ludhiana.	214
4.1.A.d.8.1	Standardized size chart of trousers for commercial	215

	application for regular fit. (155-159 cms.)	
4.1.A.d.8.2	Standardized size chart of trousers for commercial application for regular fit. (160-164 cms.)	216
4.1.A.d.8.3	Standardized size chart of trousers for commercial application for regular fit. (165-169 cms.)	217
4.1.A.d.8.4	Standardized size chart of trousers for commercial application for regular fit. (170-174 cms.)	218
4.1.A.d.8.5	Standardized size chart of trousers for commercial application for regular fit. (175-179 cms.)	219
4.1.A.d.8.6	Standardized size chart of trousers for commercial application for regular fit. (180-184 cms.)	220
4.2.A.d.1.1	Age of the respondents	222
4.2.A.d.1.2	Monthly income of the respondents	223
4.2.A.d.2.3	Preference of Brands by the respondents	224
4.2.A.d.2.4	Factors Influencing preference of brands	225
4.2.A.d.2.5	Preference of Choice of outlets for purchasing branded trousers	227
4.2.A.d.2.6	Factors considered important while selecting and purchasing branded trousers	228
4.2.A.d.2.7	Preferred trouser fit and waist position of wearing trousers	229
4.2.A.d.2.8	Style and cut most preferred in ready made trousers	230
4.2.A.d.2.9	Alteration of purchased branded trousers	231
4.2.A.d.2.10a	Purchase of branded trousers with the same waist size	232
4.2.A.d.2.10b	Reasons for purchase of branded trousers of different waist sizes.	233
<b><u>CENTRAL ZONE - INDORE</u></b>		
4.1.A.e.1	Mean body measurements of 300 respondents in Ahmedabad specific to trousers.	236
4.1.A.e.2	Height wise Class Intervals of respondents from Indore and their mean body measurements specific to trousers.	238

4.1.A.e.3	Waist wise Class Intervals of respondents from Indore and their mean body measurements specific to trousers.	239
4.1.A.e.4	Mean Ratios of waist and other body measurements of Indore -specific to trousers.	240
4.1.A.e.5	Height wise Class Interval categories for Indore and identification labels with percentage of respondents in each category.	241
4.1.A.e.6	Waist wise Class interval categories for Indore and identification labels with percentage of respondents in each category	243
4.1.A.e.7	Correlation between height and other parameters among the respondents from Indore.	245
4.1.A.e.8.1	Standardized size chart of trousers for commercial application for regular fit. (155-159 cms.)	246
4.1.A.e.8.2	Standardized size chart of trousers for commercial application for regular fit. (160-164 cms.)	247
4.1.A.e.8.3	Standardized size chart of trousers for commercial application for regular fit. (165-169 cms.)	248
4.1.A.e.8.4	Standardized size chart of trousers for commercial application for regular fit. (170-174 cms.)	249
4.1.A.e.8.5	Standardized size chart of trousers for commercial application for regular fit. (175-179 cms.)	250
4.1.A.e.8.6	Standardized size chart of trousers for commercial application for regular fit. (180-184 cms)	251
4.2.A.e.1.1	Age of the respondents	253
4.2.A.e.1.2	Monthly income of the respondents	254
4.2.A.e.2.3	Preference of Brands by the respondents	255
4.2.A.e.2.4	Factors Influencing preference of brands	256
4.2.A.e.2.5	<i>Preference of Choice of outlets for purchasing branded trousers</i>	258
4.2.A.e.2.6	Factors considered important while selecting and purchasing branded trousers	259
4.2.A.e.2.7	Preferred trouser fit and waist position of wearing	260

	trousers	
4.2.A.e.2.8	Style and cut most preferred in ready made trousers	261
4.2.A.e.2.9	Alteration of purchased branded trousers	262
4.2.A.e.2.10a	Purchase of branded trousers with the same waist size	263
4.2.A.e.2.10b	Reasons for purchase of branded trousers of different waist sizes.	264
<b><u>METRO - BANGALORE</u></b>		
4.1.B.a.1	Mean body measurements of 150 respondents in Bangalore specific to trousers.	267
4.1.B.a.2	Height wise Class Intervals of respondents from Bangalore and their mean body measurements specific to trousers.	269
4.1.B.a.3	Waist wise Class Intervals of respondents from Bangalore and their mean body measurements specific to trousers.	270
4.1.B.a.4	Mean Ratios of waist and other body measurements of Bangalore -specific to trousers.	271
4.1.B.a.5	Height wise Class Interval categories for Bangalore and identification labels with percentage of respondents in each category.	272
4.1.B.a.6	Waist wise Class interval categories for Bangalore and identification labels with percentage of respondents in each category	274
4.1.B.a.7	Correlation between height and other parameters among the respondents from Bangalore.	276
4.1.B.a.8.1	Standardized size chart of trousers for commercial application for regular fit. (155-159 cms.)	277
4.1.B.a.8.2	Standardized size chart of trousers for commercial application for regular fit. (160-164 cms.)	278
4.1.B.a.8.3	Standardized size chart of trousers for commercial application for regular fit. (165-169 cms.)	279
4.1.B.a.8.4	Standardized size chart of trousers for commercial application for regular fit. (170-174 cms.)	280

4.1.B.a.8.5	Standardized size chart of trousers for commercial application for regular fit. (175-179 cms.)	281
4.1.B.a.8.6	Standardized size chart of trousers for commercial application for regular fit. (180-184 cms)	282
4.2.B.a.1.1	Age of the respondents	284
4.2.B.a.1.2	Monthly income of the respondents	285
4.2.B.a.2.3	Preference of Brands by the respondents	286
4.2.B.a.2.4	Factors Influencing preference of brands	287
4.2.B.a.2.5	Preference of Choice of outlets for purchasing branded trousers	289
4.2.B.a.2.6	Factors considered important while selecting and purchasing branded trousers	290
4.2.B.a.2.7	Preferred trouser fit and waist position of wearing trousers	291
4.2.B.a.2.8	Style and cut most preferred in ready made trousers	292
4.2.B.a.2.9	Alteration of purchased branded trousers	293
4.2.B.a.2.10a	Purchase of branded trousers with the same waist size	294
4.2.B.a.2.10b	Reasons for purchase of branded trousers of different waist sizes.	295
<b><u>METRO - MUMBAI</u></b>		
4.1.B.b.1	Mean body measurements of 150 respondents in Mumbai specific to trousers.	298
4.1.B.b.2	Height wise Class Intervals of respondents from Mumbai and their mean body measurements specific to trousers.	300
4.1.B.b.3	Waist wise Class Intervals of respondents from Mumbai and their mean body measurements specific to trousers.	301
4.1.B.b.4	Mean Ratios of waist and other body measurements of Mumbai -specific to trousers.	302
4.1.B.b.5	Height wise Class Interval categories for Mumbai and identification labels with percentage of respondents in each category.	303

4.1.B.b.6	Waist wise Class interval categories for Mumbai and identification labels with percentage of respondents in each category	305
4.1.B.b.7	Correlation between height and other parameters among the respondents from Mumbai.	307
4.1.B.b.8.1	Standardized size chart of trousers for commercial application for regular fit. (155-159 cms.)	308
4.1.B.b.8.2	Standardized size chart of trousers for commercial application for regular fit. (160-164 cms.)	309
4.1.B.b.8.3	Standardized size chart of trousers for commercial application for regular fit. (165-169 cms.)	310
4.1.B.b.8.4	Standardized size chart of trousers for commercial application for regular fit. (170-174 cms.)	311
4.1.B.b.8.5	Standardized size chart of trousers for commercial application for regular fit. (175-179 cms.)	312
4.1.B.b.8.6	Standardized size chart of trousers for commercial application for regular fit. (180-184 cms)	313
4.2.B.b.1.1	Age of the respondents	315
4.2.B.b.1.2	Monthly income of the respondents	316
4.2.B.b.2.3	Preference of Brands by the respondents	317
4.2.B.b.2.4	Factors Influencing preference of brands	318
4.2.B.b.2.5	Preference of Choice of outlets for purchasing branded trousers	320
4.2.B.b.2.6	Factors considered important while selecting and purchasing branded trousers	321
4.2.B.b.2.7	Preferred trouser fit and waist position of wearing trousers	322
4.2.B.b.2.8	Style and cut most preferred in ready made trousers	323
4.2.B.b.2.9	Alteration of purchased branded trousers	324
4.2.B.b.2.10a	Purchase of branded trousers with the same waist size	325
4.2.B.b.2.10b	Reasons for purchase of branded trousers of different waist sizes.	326

### **METRO - DELHI**

4.1.B.c.1	Mean body measurements of 150 respondents in Delhi specific to trousers.	329
4.1.B.c.2	Height wise Class Intervals of respondents from Delhi and their mean body measurements specific to trousers.	331
4.1.B.c.3	Waist wise Class Intervals of respondents from Delhi and their mean body measurements specific to trousers.	332
4.1.B.c.4	Mean Ratios of waist and other body measurements of Delhi -specific to trousers.	333
4.1.B.c.5	Height wise Class Interval categories for Delhi and identification labels with percentage of respondents in each category.	334
4.1.B.c.6	Waist wise Class interval categories for Delhi and identification labels with percentage of respondents in each category	336
