| SL No.            | DESCRIPTION                | PAGE NO. |
|-------------------|----------------------------|----------|
| <b>CHAPTER –1</b> |                            |          |
| 1.1               | GENERAL                    | 1        |
| 1.2               | PROBLEM AND OBJECTIVES     | 4        |
| 1.2-1             | METHODOLOGY                | 6        |
| 1.2-2             | ORGANISATION OF THE THESIS | 7        |
| 1.2-3             | LOCATION OF THE STUDY AREA | 9        |
| 1.2-4             | PHYSICAL FEATURES          | 10       |
| 1.2-5             | PREVIOUS WORK              | 10       |
| <b>CHAPTER-2</b>  |                            |          |
| 2.1               | INTRODUCTION               | 13       |
| 2.2               | THE ARCHAEOAN ROCKS        | 17       |
| 2.2-1             | EASTERN GHAT SUPER GROUP   | 18       |
| 2.2-1.1           | CHARNOCKITE GROUP          | 18       |
| 2.2-1.2           | KHONDALITE GROUP           | 19       |
| 2.2-2             | MIGMATITE COMPLEX          | 20       |
| 2.2-3             | SATHYAMANGALAM GROUP       | 21       |
| 2.2-4             | KÔLAR GROUP                | 22       |
| 2.2-5             | BHAVANI GROUP              | 23       |

| <b>SL No.</b>      | <b>DESCRIPTION</b>             | <b>PAGE NO.</b> |
|--------------------|--------------------------------|-----------------|
| 2.3                | PROTEROZOIC FORMATIONS         | 23              |
| 2.3-2              | DYKES AND SILLS                | 25              |
| 2.3-2              | ULTRAMAFIC AND ALKALINE BODIES | 25              |
| 2.4                | MESOZOIC ROCKS                 | 26              |
| 2.5                | CENOZOIC                       | 27              |
| 2.6                | STRUCTURE AND TECTONICS        | 27              |
| <b>CHAPTER – 3</b> |                                |                 |
| 3.1                | INTROCUCTION                   | 33              |
| 3.2                | GEOLOGY IN BRIEF               | 33              |
| 3.3                | STRUCTURE IN BRIEF             | 35              |
| 3.4                | GEOLOGY IN DETAIL              | 35              |
| 3.4-1              | METASEDIMENTARIES              | 36              |
| 3.4-1(a)           | QUARTZITE                      | 36              |
| 3.4-1(b)           | CALC-GNEISS                    | 37              |
| 3.4-2              | BASIC GRANULITE                | 38              |
| 3.4-3              | CHARNOCKITES                   | 38              |
| 3.4-4              | AMPHIBOLITES                   | 42              |
| 3.4-5              | GNEISSES                       | 43              |
| 3.4-5(a)           | AUGEN GNEISS                   | 43              |
| 3.4-5(b)           | MIGMATITIC GRANITIC GNEISSES   | 45              |
| 3.4-5.(c)          | HORNBLLENDE BIOTITE GNEISS     | 45              |

| <b>SL No.</b>      | <b>DESCRIPTION</b>                        | <b>PAGE NO.</b> |
|--------------------|---|-----------------|
| 3.4-6              | PEGMATITES                                | 47              |
| 3.5                | STRUCTURE IN DETAIL                       | 48              |
| 3.5-1              | FOLDS                                     | 48              |
| 3.5-1(a)           | F <sub>1</sub> - FOLDING                  | 49              |
| 3.5-1(b)           | F <sub>2</sub> - FOLDING                  | 51              |
| 3.5-2              | FAULTS                                    | 51              |
| 3.5-3              | JOINTS                                    | 52              |
| 3.6                | SUMMARY OF FIELD OBSERVATIONS             | 52              |
| <b>CHAPTER – 4</b> |   |                 |
| 4.1                | INTRODUCTION                              | 56              |
| 4.2                | METHODOLOGY                               | 56              |
| 4.3                | QUARTZITE                                 | 57              |
| 4.4                | CALC-GRANULITE                            | 58              |
| 4.5                | BASIC GRANULITES                          | 60              |
| 4.6                | CHARNOCKITE                               | 63              |
| 4.7                | AMPHIBOLITE                               | 67              |
| 4.8                | GNEISS                                    | 68              |
| 4.9                | PEGAMATITE                                | 70              |
| 4.10               | PETROGRAPHIC OBSERVATIONS AND CONCLUSIONS | 70              |
| 4.10-1             | MAGMATISM                                 | 71              |
| 4.10-2             | METAMORHISM                               | 71              |

| <b>SL No.</b>      | <b>DESCRIPTION</b>   | <b>PAGE NO.</b> |
|--------------------|--|-----------------|
| 4.10-3             | RETROGRESSION  | 72              |
| 4.10-4             | METASOMATISM   | 72              |
| 4.10-5             | TECTONISM  | 72              |
| <b>CHAPTER – 5</b> |  |                 |
| 5.1                | INTRODUCTION   | 74              |
| 5.2                | SAMPLE PREPARATION   | 75              |
| 5.2-1              | SAMPLE PREPARATION PROCEDURE FOR WET<br>CHEMICAL ANALYSIS USING ASS AND ICP. | 76              |
| 5.3                | UV-SPECTROPHOTOMETER (UVS)   | 77              |
| 5.4                | ATOMIC ABSORPTION SECTROMETER (ASS)  | 77              |
| 5.5                | INDUCTIVELY COUPLED PLASMA-MASS<br>SPECTROMETER (ICP-MS)                     | 79              |
| <b>CHAPTER – 6</b> |  |                 |
| 6.1                | INTRODUCTION   | 97              |
| 6.2                | BASIC GRANULITES   | 99              |
| 6.3                | CHARNOCKITES   | 111             |
| 6.4                | AMPHIBOLITES   | 134             |
| 6.5                | GNEISSES   | 143             |
| 6.6                | CALC-GRANULITE   | 155             |
| 6.7                | QUARTZITE  | 158             |
