ACKNOWLEDGEMENTS

First and foremost, I am thankful to AL-Mighty for being most gracious, most merciful and for bringing me good luck in all the good work I wished to do.

It is an honor to place and record deep sense of gratitude to my guide Professor J. Sannappa, Associate Professor, department of Post – Graduate Studies and Research in Physics, Kuvempu University, Jnasahayadri, Shankaraghatta, Shimoga, for his expertise and patient guidance throughout this research work and for all the support he has contributed in the completion of this work in time. I also owe a deep sense of gratitude to his wife Mrs. Kalavathi S.P and children Prithveesh Y.S, Chinmayi Y.S for their supportive involvement throughout this research program.

I owe my gratitude to Dr. T. Demappa and Dr. Mahadevaiah, Department of Studies in Polymer Science, Sir M.V.P.G Center, University of Mysore, Mandya, for co-guiding me through various research activities and making this research work a grand success.

I thank my Professors, K.S. Mallesh, T.K. Umesh, L.Paramesh, Dept of Physics, Manasagangothri, Mysore, for reviewing this thesis and providing with their constructive suggestions in completing this thesis in time.

Special thanks to Prof. Srikantaiah, Retired Scientist, BARC, Mumbai, without whom, this research idea would not have been initiated nor completed in time without any difficulties, thanks for all your valuable guidance, motivation, helpful critics, useful discussions and constructive suggestions in successfully completing this research work. I also thank Dr. Arindam Ray, Senior Scientist BARC, Mumbai for their involvement in reviewing and correcting the manuscripts.

I would like to express my appreciation and thanks to, Mr.Madhusoodhan, Chief Officer, M/s Microtrol Sterilization Private Limited, Bangalore, for the assistance received and also for providing the gamma irradiation facility mainly required for my research work.

I am thankful to Professor Praveen, Head of the department of Material Science Engineering department, and the technical staff at SID and Material Science department, IISc, Bangalore for DSC, FTIR and SEM analysis. I also thank Grian Technologies Pvt. Limited, Bangalore for their support in electrical conductivity
studies. A special thanks to Dr Shibu M Eappen, Scientist in charge, SAIF Cochin University of Science and Technology, Cochin, for XRD measurements.

I wish to express my gratitude and indebtedness to Dr. A. Manjunath, Government Science College, Chitradurga, Karnataka, Dr. S. Divakara, HOD, Dept. of Physics, VVCE, Mysuru for their involvement in reviewing and correcting the manuscripts in time.

I thank all my colleagues, Prof. N.Manjula, Prof. Sridevi B.R, Mr. Guruprasad and Mrs. Chandrika for providing me with their creative ideas and encouragement. Special thanks go to Prof. N.Manjula for all those useful scientific discussions we had during this period which had always given fruitful results which helped me in various research activities.

Thanks to all the staff from Chemistry, mechanical and Civil Engineering departments from Vidyavardhaka College of engineering, for their support at various stages of this research work. Special thanks to Prof. S.B. Devaraj, Dept. of Chemistry and Dr. H.S. Dayananda, HOD, Dept. of Civil Engineering, VVCE, Mysuru for lending the required experimental equipment’s during the sample preparation process and their supportive encouragement in completing this research work successfully.

I also thank, Dr. Anitha sudhir, Prof. Shruthi and Mrs Kumudha, staff from department of Chemistry, VVCE, Mysuru, for providing their supportive and friendly environment in successive completion of this work.

I would like to express my appreciation and thanks to Dr. Sadashive Gowda, Principal, VVCE, and also the Management VVCE, Mysuru for permitting me and also providing all the useful resources in time for my research activities during this period. With their motivation, encouragement and support this work completed successfully in time.

Most importantly, to my parents T. Nagarajaiah and M.J. Padmavathi, words are boundless to express my thanks for all your encouragement, support and always having high confidence in my abilities. You have always shown me the right path in life and your endless love, great belief in me, kept me alive all these years. Without you I would not have succeeded in life.
A special and giant thanks to my husband Sathish Krishna, without whose support this work would neither have been initiated nor possible to complete in time. Heartfelt thanks for providing all the software skills required for this research, valuable guidance, encouragement and for being with me always throughout my research activities. Thanks to my cutest baby Pinky, her innocent and lovely smile energies and encourage me to complete this thesis work successfully in time.

Extra big thanks to all my family members, my sisters, Chaitra, Sindhu, Likitha, Sahana, my enthusiastic brothers, Sathish Gowda, Pradeep, Promod, Prashanth and Venu Gopal for sharing their happy moments and making this period a joyful journey. Special thanks go to Mrs. Chaitra and Mr. Promod, for involving in my research activities and always lending their supportive hands at various levels during this period. Thanks, to my aunts Mrs. Nagarathnadevegowda, Mrs. Sujatha and Mrs. Jayalakshmiraju, for always staying with me in all my difficult times and helping to come out of it with their love.

My heartfelt thanks to the staff and all inmates of Somani Working Women Hostel Mysuru, for their refreshing smiles, their love, sharing sorrows and happy moments and also for providing a safe and homely environment during my long stay which always made me feel at home.

I feel very grateful to my best friends Reka and Geetha, who were always with me in my ups and downs of my life journey, and brought me joy by their encouraging and supportive hands. Thanks to my friend Dr. Vijaylakshmi Dayal HOD, Dept. of Physics MIT, Mysore, for guiding me through her expertise suggestions throughout my research work. I thank all the staff at Yuvaraja’s college, Mysuru for providing me a platform to do research work and help me in completing this research work in time.

Finally I would like to thank everyone who are directly or indirectly involved in successful completion of this research work.

(N. Sandhya Rani)
