

ACKNOWLEDGEMENT

On the completion of my thesis, I am feeling greatly indebted to my supervisor, learned personalities, friends and my family members without the support of whom, I would not have dreamt to finish this research work. First of all, I extend my heartiest thanks to my Supervisor, Dr. Ramandeep Kaur who not only guided my research work but also became an inspirational force for me to take up the challenges with commitment. I could enjoy even the stressful moments during my hectic research and survey work with a gentle touch and encouraging remarks of Dr. Ramandeep Kaur from time to time. She always accommodated me during her busy schedule and continued to give her valuable suggestions while dealing with different chapters of the research work.

I am highly thankful to Dr. Jasdeep Kaur Dhani, ex co-coordinator, RDC, Lovely Professional University, who helped me time and again with her great insight in the field of research. I also extend my heartiest thanks to Dr. Pooja Tondon, coordinator, RDC, Lovely Professional University and Mr. Babbal Kumar, Office Executive, RDC, Lovely Professional University who were always helpful in my research work and without their cooperation, the completion of my work would have been an uphill task.

My humble respect and thanks are also for the SOTA Seminar Committee of the University for their valuable suggestions, guidelines and expert remarks. Dr. Sanjay Modi, Dr. Mihir Malik, Dr. Anup Beri and Dr. Rajesh Verma always gave me a patient hearing whenever I visited their office with the problems of my research work.

The in-depth knowledge and farsightedness of Professor Daljit Singh Bhatia and Dr. Surinder Sharma of Doaba College, Jalandhar always made me comfortable while dealing with the tough and technical topics of statistics in my thesis. They were always helpful and welcoming as and when I needed their valuable time for important queries. Dr. Avinash Bawa, and Dr. Namarta Nistandra of the Department of English, Doaba College, Jalandhar were also kind and instrumental in correcting the language of the research work.

My inward regards are also for the experts and respondents who were always welcoming whenever I approached them in their busy schedule.

My humble gratitude to my father in law, mother in law, my husband and special love for my daughter Navdeep Kaur who all played a vital role in the completion of my work and were always ready to compromise with their comforts in the family. My husband extended moral and psychological support whenever I was in dire need of it. I do not have the words to express all my feelings that I have for my husband with the help of whom I could devote time for my research and studies and he was with me even during the moments of my frustration and disappointment.

Meena Jhamat
