

ACKNOWLEDGEMENT

The complete thesis is a learning outcome of the past five years. At first and foremost, I would like to express the sincere thanks to my thesis supervisor *Prof. (Dr.) Chandra Charu Tripathi*. His timely advice and consistent support help me a lot throughout the work. It is an honor for me to be his first Ph.D. student. I really appreciate his extraordinary approach for giving me the freedom to work independently on new research areas. I would like to extend my thanks to him for providing me research facilities within the college premises. His motivating magnificent ideas have encouraged me to give my best in the research work.

I want to express my sincere thanks to *Prof. Dinesh Kumar* the then Director, UIET for his constant encouragement and support to develop the research lab facilities. In continuation, I wish to express my sincere gratitude to *Prof. Sunil Dhingra*, Director, UIET for his valuable support in the completion of this work. I am extremely thankful to *Prof. Anil Vohra*, Dean, Research & Development, Kurukshetra University for his important questionnaire and precious advice during the progress seminars which helps me in laying down the foundation of my technical work. I would like to thank to *Dr. Swati Dahiya*, *Dr. Pranay Jain* and *Dr. Sona Malhotra* for helping me to understand the method of finding the research problem through course work classes of research methodology.

I would like to express my appreciations to the entire faculty of the department of Electronics & Communication Engineering especially *Mr. Rahul Gupta* and *Mr. Krishan Gopal* for their motivational support during the PhD tenure. I express my thanks to *Dr. Sunil Dhingra*, Assistant Professor, Department of Mechanical Engineering, UIET for his valuable suggestions and encouraging support in the progress of work. I am thankful to *Mr. Rajneesh*, Assistant Professor, Department of Mechanical Engineering, National Institute of Technology, Kurukshetra for his timely advice during the written work of this thesis. I am extremely thankful to *Mr. Saptarshi Ghosh*, Ph.D. Scholar, IIT Kanpur for valuable discussions on the methods of measurement of fabricated structure. I wish to thank *Dr. Somak Bhattacharyya*, Ex Ph.D. Scholar, IIT Kanpur for his valuable suggestions during thesis writing.

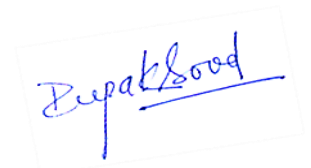

I am very much thankful to all technical supporting staff of the department of Electronics & Communications Engineering, UIET specifically *Mr. Manoj Dubey* and *Mr. Ram Kumar* for their valuable support in the lab work. The work is financially supported by MHRD sponsored TEQIP-II project (sub component1.1). I express my thanks to *Mr.*

Pardeep and *Mr. Deepak* form TEQIP office, UIET for their help and support during the procurement process of research facilities in the lab. I want to thank all other colleagues of the institute for their friendly support and encouragement.

I feel self-respect and pleasure to be associated with my juniors *Randhir Singh Bhoria, Sonia Sharma, Kapil, Sandeep Kumar, Shilpi and Sandeep* for their perpetual support at different stages of my Ph.D. work.

I am also thankful to my students *Punit Anand (Entuple Pvt. Ltd), Robin Kalyan (Ph.D. Scholar, IIT, Delhi), Suraj Nagpal (Asstt. Prof., GITM, Kurukshetra)* and especially *Deepshikha (IAS, 2015)* as the sources of constant encouragement for me.

I am extremely thankful to my family members for their constant support and for everything they did to encourage me throughout the entire journey of my Ph.D. work. Their patience and support cannot be explained.

(Deepak Sood)
