

LIST OF TABLES

Table No.	Table	Page No.
1	Distribution of respondents organisation wise	96
2	Distribution of respondents according to age	98
3.	Sex wise distribution of respondents	99
4.	Education level of respondents	100
5.	Professional distribution of respondents	101
5A.	Distribution of subjects, according to their nature or work	101
6.	Visit to library	103
7.	Use of different channels of information	105
8.	Formed sources of information used by researchers	106
9.	Informal sources of information used by researchers	110
10.	Kinds of information used by researchers	112
11.	Methods used to remain current in the subject field	115
12.	Methods used for searching subject information	118
13.	Degree of satisfaction regarding bibliographical control...	121
14.	Use of bibliographical sources by researchers	122
15.	Language wise use distributions of literature	124

16.	Frequency of internet use by researchers	126
17.	Purpose of internet use	127
18.	Researcher awareness regarding inter library loan	129
18A.	Frequency of inter library loan	130
19.	Researchers' views regarding available information sources	131
20.	Researchers' views regarding available information services	133
21.	Researchers choice of journals for publishing articles	135
22.	Publication output of researchers	137
23.	Opportunity for attending conference/seminar	138
24.	Hurdles faced in participating in conferences/seminar	139
25.	Frequency of interaction among researchers in same organisation	143
26.	Degree of interaction with researchers of other organisation	146
27.	Journals frequently demanded and used by researchers	148
