ACKNOWLEDGEMENT

I am deeply indebted to my esteemed guide Prof. K.S. Karanth for his valuable guidance, encouragement and sincere interest throughout the study. I wish to express my heartfelt gratitude to him for his constant supervision and help without which this work would not have materialised.

I am extremely grateful to Prof. Dr. (Mrs) Ahalya Devi, Head of the Department of Pharmacology, for her encouragement and words of inspiration throughout this study.

I take this opportunity to express my sincere thanks to Prof. L.N. Rao, Principal, K.M.C. Manipal, for giving me an opportunity to work in this college.

I gratefully acknowledge Dr. R. Shanbhogue, Professor, Pharmacology, for his keen and unfailing interest during the course of this study.

I owe profound gratitude to Dr. M.N.G. Kutty, Associate Professor, Pharmacology and Dr. S. Roy, Psychiatrist, for their constructive and valuable suggestions.

I wish to convey my sincere thanks to Dr. S. Guru Madhav Rao, Dr. K.L. Bairy and Dr. C. Mallikarjun, who have been associated directly and indirectly in completing this work.

I am delighted to pen a few words of love to my well-wisher J. Prathiba, who wholeheartedly and sincerely helped me. She will ever remain in my cherished memories.
My friends - Dr. Ramalingam, Pharmacology, Dr. Sabitha, Pharmacology and Dr. Vidya, Biochemistry, for having unconsciously imprinted a long lasting impression by their sharing my happiness, achievements and sorrows.

It may sound superfluous to thank one's own parents. But, I must acknowledge their wealth of affection and unfailing understanding which stood as two strong pillars keeping me buoyant, at times when I tended to sag.

I thank the following pharmaceutical companies: A.H. Robins Company (Virginia); Astra Research Centre (Sweden); Bristol Myers Company (Indiana); Centre De Recherches Roussel Uclaf (France); Glaxo Group Research Ltd., (UK); Janssen Pharmaceutics (Belgium); Lilly Research Laboratories (Indianapolis); Merck Sharp and Dohme (USA); Research Biochemicals Inc., (USA); and Schering Aktiengesellschaft (Berlin), for the generous gift supply of the drugs used in the present study.

Finally, I am thankful to Mr. Shankar Acharya, Mr. Lakshman Kayak, Mr. Kooma, Mr. Krishna and Mr. Ramesh for their kind help during my work.
