ACKNOWLEDGEMENT

This dissertation would not have been possible without the help of so many people in so many ways.

I wish to thank first and foremost to my Guide Dr. Satheesha Nayak B., Professor, Department of Anatomy, M.M.M.C. (Manipal Campus), Manipal and my Co-Guide Dr. Raghavendra Rao K., Professor, Department of Physiology, K.M.C., Manipal.

This thesis would not have been possible unless his valuable suggestions, encouragement, dedication and zeal towards science which kept me moving with confidence to complete the study successfully.

I am grateful to Dr. K.K. Srinivasan, Professor and Head, Department of Chemistry, Shri Madhwa Vadiraja Institute of Technology and Management, Bantakal.

It is my pleasure to thank Dr. Alex Joseph, Associate Professor, Department of Pharmaceutical Chemistry, Manipal College of Pharmaceutical Science, Manipal University for his scientific inputs and support.

I owe a special gratitude to Dr. Pradeep Kumar G., Professor, Department of Forensic Medicine for his deep concern, encouragement and support throughout that enabled me to complete the study.

I express my gratitude to Dr. Shobha U. Kamath, Associate Professor, Department of Biochemistry, Kasturba Medical College, Manipal University for her immense help in performing biochemical assays.

I owe a special thanks to the Vice President Dr. K. Ramnarayan for his support.

I express my gratitude to Dr. Kirtana M. Pai, Professor and Head, Department of Physiology, Kasturba Medical College, Manipal University.

My heartfelt gratitude to my beloved friends Dr. Sareesh Naduvil Narayanan, Assistant Professor, Department of Physiology; Mr. Naveen Kumar, Lecturer, Department of Anatomy, Melaka Manipal Medical College (Manipal Campus), Manipal University, Manipal; Mr. Murali Adiga, Lecturer and Mrs. Sanu Susan Jacob, Senior Grade Lecturer, Department of Physiology, K.M.C., Manipal who has helped me in every stage of my research work, from trouble shooting to dissertation writing. This work would not have been completed without their generous and professional assistance.
I express my gratitude to Dr. Raju Suresh Kumar, Medical Physiologist and Researcher, KSAU- HS, Jeddah, KSA to encourage me to commit the study.

It is a great pleasure to acknowledge my dear students Mr. Vijay Kapgal, Mrs. Sadhana Nandi, Mrs. Mamta Kandwal, Miss. Chitrini Ghosal and Mr. Pramod Kr. Yadav.

I would like to thank Dr. Pragna Rao, Associate Dean, Kasturba Medical College, Manipal University, Manipal and Dr. Sudhakar Nayak, Professor, Department of Biochemistry, Kasturba Medical College, Manipal University, Manipal for their inspiration, support and encouragement which paved my path towards the successful completion of my project work.

A special thanks to my friend and colleague Dr. Satish Kumar M.C. and Mr. Tambi Medabala for their help.

I thank all those who have helped and supported me directly or indirectly in completing this study.

I owe a special gratitude to my sister Dr. Piyali Adhikari and cousins Mr. Pabitra Sahoo and Miss. Ananya Sahoo for their encouragement and support in all my endeavours.

I dedicate this dissertation to my parents; Dr. M.K. Adhikari & Mrs. Nibedita Adhikari and my wife Mrs. Ranu Adhikari who has always supported me in my life.

Mr. Snehunsu Adhikari
