LIST OF TABLES

CHAPTER I-INTRODUCTION

Table 1  Zingiber species comparison 10

CHAPTER II-REVIEW OF LITERATURE

Table 1  Economically important species diversity in Zingiber 37
Table 2  Classification of Zingiber species 38
Table 3  Cultivar/varietal diversity in Ginger in India 40
Table 4  Ginger cultivars identified for various uses 41

CHAPTER III-MATERIALS AND METHODS

Table 1  List of Zingiber samples 53
Table 2  Other medicinal plant species and tissue used for DNA extraction 54
Table 3  Fragment sizes in Lambda/HindIII digest and quantity of DNA 60
Table 4  RAPD reaction 62
Table 5  Thermal cycling parameters for RAPD reaction 63
Table 6  A-tailing reaction 66
Table 7  Ligation reaction 67
Table 8  Transformation reaction 68
Table 9  Restriction digestion of recombinant plasmids 71
Table 10  Primer sequences 72
Table 11  PCR reaction for sequencing 74
Table 12  Thermal cycling parameters for sequencing PCR 75
Table 13  Test materials used for applicability studies 77

CHAPTER IV-RESULTS AND DISCUSSION

Table 1  BLAST hits for ZoC6 99
Table 2  BLAST hits for ZoG6 104
Table 3  BLAST hits for ZoC9 105
Table 4  Sequences of RAPD and SCAR primers 106
Table 5  Different SCAR primer combinations used and expected product size 107
Table 6  Selected SCAR marker primer pairs, their optimum annealing temperature and amplicon size 108
