ACKNOWLEDGEMENTS

I am feeling very contented to submit my Ph. D. thesis to I.K. Gujral Punjab Technical University, Jalandhar. It has been the most challenging and fruitful experience of my life, and has given me the opportunity to work with something that I really enjoyed. I want to take this opportunity to thank all the people who have contributed in this research work.

I am highly indebted to my research supervisor Prof. (Dr.) Shyam Sundar Pattnaik, Professor and Head, Educational Television Centre, National Institute of Technical Teachers’ Training and Research (NITTTR), Chandigarh, for invaluable advice and support throughout this research work. I thank him for his encouragement, patience, generous amount of time and effort, countless edits of my papers and dissertation, and especially for giving me a chance to be part of his research group. It would not have been possible for me to complete this work without the confidence shown in me by Prof. (Dr.) S. S. Pattnaik and working with him has been an unforgettable learning experience.

Heartfelt thanks are humbly expressed to my research colleagues, especially Dr. J.G. Joshi, for numerous discussions and suggestions on the technical aspects of the work presented in this thesis. I would also like to thank the Director, faculty, and staff members of NITTTR, Chandigarh for their help during my Ph.D. work.

I am highly grateful to the Director, Guru Nanak Dev Engineering College (GNDEC), Ludhiana, and the Head, Department of Electronics & Communication Engineering, GNDEC, Ludhiana, for their encouragement and support during this work. I also wish to express special thanks to the faculty and staff members of Departments of Electronics & Communication Engineering, GNDEC, Ludhiana, for their time to time help on completing my Ph.D. work.

I am thankful to the I.K. Gujral Punjab Technical University, Jalandhar for giving me the opportunity to work on this research work.
Special thanks are expressed to my family members, especially to my wife Sukhdeep and my son Anshveer, for their overwhelming support and encouragement throughout my research work and life. Without their support, I would have not had any opportunity to be where I am right now.

I am also thankful to Dear Zadjiya and Shubhranshu for happily allowing me to take a lot of time of their father, Prof. (Dr.) S. S. Pattnaik, during the evenings, holidays, and whenever required.

I also wish to place on record my profound gratitude to my friends who have helped me throughout this research work with their technical and moral support.

I am also thankful to the authors of various research papers and books whom I have referred in this research work.

The whole of present endeavour got its culmination by the grace of one Supreme Being, The Almighty. So I express my deep sense of gratitude to The GOD for always being there and for providing me the strength to complete this research work.
