ACKNOWLEDGEMENT

A journey is easier when you travel together. Interdependence is certainly more valuable than independence. It is pleasant aspect that I have now the opportunity to express my gratitude for all of them.

It is my proud privilege to express my deepest and earnest sense of gratitude to Dr. Narinder Singh and Dr. Yaduvir Singh, my supervisors for their meticulous guidance, continuous encouragement, altruistic help and enormous freedom, which they gave me during this doctoral study. Their enthusiasm, assiduous guidance, immense patience, astute intellectual capabilities, deep technical insights, dedication and their consequential thinking have been a great learning experience for me. I am grateful to them for their earnest interest in my overall well being. It was a wonderful experience to work under them and this thesis would not have appeared in its present form without their expert guidance, intelligent ideas, intellectual pursuits and their substantial corrective comments. I am also thankful to Mrs. Jaswinder Kaur, wife of Dr. Narinder Singh, Mrs. Prachi, wife of Dr. Yaduvir Singh and loving kids Vibhav and Vineet for their good wishes and kind support.

It is my pleasure to express my heartfelt gratitude to mentors of my life, Dr. Savina Bansal and Dr. R.K. Bansal for having constant motivations and encouragements to work hard. I am extremely thankful to them for always helping me to keep thinking positive even in discouraging phase of my doctoral studies and encouraged me to finish work successfully.

I owe my profound thanks and appreciation to Chairman Adesh foundation, Dr. H.S. Gill, Director Technical Division, Er. Gurfateh Singh Gill and Additional Director, Er. JanjitPal Singh Sekhon for their unconditional support, simplistic approach and the belief they had in me throughout this study, for which I am indebted.

I express my deep sense of gratitude to Prof. (Dr.) S. S. Bhatti for his untiring and luminous guidance, encouragement and incessant support. Being a fatherly figure he would always remain a source of inspiration for me in every aspect and walk of this work. I am thankful to him for providing all institutional facilities and permitting me to carry out this work.

I am thankful to all the reviewers of the various Journals for their valuable comments.
and suggestions on my publications. Without their enlightening suggestions, it would not be possible for this thesis to achieve its present end. I wish to acknowledge gratefully the courtesy of the publishers who have granted permission for the publication of my research papers in their journals.

I am thankful to Dr. Rajneesh Arora, Vice Chancellor of the Punjab Technical University and Dr. Buta Singh Sidhu, Dean Academics, Punjab Technical University for their support and timely approval of reports and for providing me a platform to undertake doctoral study under highly experienced and enlightened faculty in a splendid way.

Words are not sufficient to thank my dear friend Er. Sukhwinder Singh who stood by me in my good and bad times. He always helped me in overcoming the odds and encouraged me to work harder in accomplishing this task. He has burnt midnight oil with me in successful completion of this work. I am extremely thankful to him and shall never forget his efforts to complete this work throughout my life.

I would like to thank my friends Rohit, Subhranshu, Jarmanjit, Kawaljeet, Vaibhav, Sandeep and Amit for their best wishes, prayers, moral support and constructive suggestions. I wish to thank my friend Er. Manish Goyal for his several valuable advices, support, ideas and motivations during this work.

Finally, the blessings of my family and my near and dear ones have given me the strength to take up this work and complete it to the best of my ability. Words cannot describe the incredible sense of gratitude and love that I have for my family. I profoundly express my deepest gratitude and appreciation to my elder brother’s family Mr. Ashwani K. Malhotra, Mrs. Meenu Malhotra, Madhur and Sakshi. I express my gratitude to my elder sister family Er. Jatinder Pal, Mrs. Nishi, Tanmay and Mehak for their love, affection and innumerable sacrifices which makes me privileged and indebted.

I take this opportunity to express my thankfulness and reverence to my parents in law Mr. D.P. Arora, Mrs. Asha Arora, Dr. Amit Arora and Dr. Neha Arora, for their prayers and good wishes for completion of this work.

I am extremely thankful to my beloved wife Anu for her constant encouragement, love and guidance throughout my Ph.D studies. This is also the time to thank my daughter, Bhavi (07) and my son Atharav (01), who tolerated my absent mindedness,
my bad moods and preoccupations. They have learnt significance of education in early childhood. My deep felt thanks to them for giving me a peaceful homely environment. Special thanks to my daughter Bhavi, who spared her childhood during the completion of this work.

More than anything, I am indebted to my ancestors, my parents Sh. S.K. Malhotra and my mother, Mrs. Prem Malhotra for their constant encouragement, motivations, endless guidance, enormous support, sacrifice, their unconditional love and continual blessings over the decades. Without their struggles, without their determination, I would not be where, I am today.

I express my deep gratitude to all pervading spirits whose divine light provided me the guidance, inspiration, faith, confidence and strength to carry on ahead even during tough times. This job would never have been completed without the teachings of Arya Samaj.
