DECLARATION	i
PRE-PHD SUBMISSION SEMINAR	ii
CERTIFICATE	iii
ACKNOWLEDGEMENTS	iv
LIST OF FIGURES	vii
LIST OF TABLES	xiii
<b>CHAPTER 1. INTRODUCTION</b>	
1.1. Monogenoidea	1
1.2. Importance of studies on monogenoids	3
1.3. Status of monogenoidean studies in Indian and Arunachal Pradesh	4
<b>CHAPTER 2. REVIEW OF LITERATURE</b>	6
<b>CHAPTER 3. MATERIALS AND METHODS</b>	9
3.1. Study area	9
3.2. Collection and processing of host samples	10
3.3. Collection and processing of parasite samples	10
3.4. Elucidation of fungal hyperparasitism	11

3.5. Microhabitat distribution of <i>Bychowskyella</i> n. sp. 1	11
3.6. Identification of priority fish species and geographic localities	11
<b>CHAPTER 4. RESULTS AND DISCUSSION</b>	21
<b>4.1. Biodiversity of the monogenoids</b>	21
4.1.1. Seven new species of <i>Bychowskyella</i> Akhmerov, 1952	27
4.1.2. One new species of <i>Thaparogyrus</i> Gusev, 1976	63
4.1.3. Three new species of <i>Dogielius</i> Bychowsky, 1935	68
4.1.4. Two new species of <i>Thaparocleidus</i> Jain, 1952	83
4.1.5. Four new species of <i>Dactylogyru</i> s Diesing, 1850	93
4.1.6. Three new species of <i>Ancyrocephalus sensu latum</i> ( <i>s. l.</i> ) Gussev, 1976	112
4.1.7. New host and distribution records of <i>Dactylogyru</i> s <i>sphyrnoides</i> (Platyhelminthes, Monogenoidea)	127
<b>4.2. Niche dimensions of the monogenoids</b>	135
4.2.1. Fungal hyperparasitism in <i>Ancyrocephalus</i> n. sp. 3	135
4.2.2. Microhabitat distribution and locomotory behaviour of <i>Bychowskyella</i> n. sp. 1	137
<b>4.3 Identification of priority fish species and habitats</b>	140
<b>CHAPTER 5. REFERENCES</b>	144
<b>CHAPTER 6. CONCLUSION/SUMMARY</b>	180
