

LIST OF TABLES

Section	Description	Page No.
3.	Materials and Methods.....	
3.1	Experimental diet composition.....	52
3.2	Experimental animal groups.....	53
3.3	16S rRNA gene specific primers for microflora quantification.....	58
3.4	The mRNA specific primers for gene expression analysis.....	62
3.5A	Experimental animal groups to check efficacy of formulation.....	69
3.5B	Experimental animal groups for gut microflora alteration.....	69
4.	Results and Discussion.....	
4.1	Optimization of the enteric coated cefdinir microspheres.....	110
4.2	Release kinetic analysis for enteric coated cefdinir microspheres.....	113
4.3	Optimization of the enteric coated linezolid microspheres.....	114
4.4	Release kinetic analysis for Enteric coated linezolid microspheres.....	117
4.5	Effect on physiological and blood biochemical parameters.....	129
4.6	Effect on inflammatory and liver biochemical parameters.....	130
