

LIST OF FIGURES		
FIGURE	TITLE	PAGE
4.1.1	Mean scores of self-awareness of underweight, normal weight, over weight and obese college women	84
4.1.2	Mean scores of empathy of underweight, normal, over weight and obese college women	87
4.1.3	Mean score of self-motivation of underweight, normal weight, over weight and obese college women	88
4.1.4	Mean scores of emotional stability of underweight, normal weight, over weight and obese college women	91
4.1.5	Mean scores of managing relations of underweight, normal weight, over weight and obese college women	92
4.1.6	Mean scores of integrity of underweight, normal weight, over weight and obese college women	94
4.1.7	Mean scores of self-development of underweight, normal weight, over weight and obese college women	95
4.1.8	Mean scores of value orientation of underweight, normal weight, over weight and obese college women	97
4.1.9	Mean scores of commitment of underweight, normal weight, over weight and obese college women	98
4.1.10	Mean scores of altruistic behaviour of underweight, normal weight, over weight and obese college women	100
4.1.11	Mean scores of emotional intelligence of underweight, normal weight, over weight and obese college women	102
4.1.12	Relationship between height and emotional intelligence and its sub domains of college women	104
4.1.13	Relationship between weight and emotional intelligence and its sub domains of college women	105
4.1.14	Relationship between body mass index and emotional intelligence and its sub domains of college women	105
4.1.15	Relationship between bulimia and emotional intelligence of college women	107
4.1.16	Relationship between oral control and emotional intelligence of college women	107
4.1.17	Relationship between dieting and emotional intelligence of college women	108

4.1.18	Relationship between eating attitude and emotional intelligence of college women	108
4.2.1	Mean scores of metabolic equivalent of task (MET) or physical activity level among obese and non-obese college women	112
4.2.2	Relationship between metabolic equivalent of task (MET) or physical activity and body mass index (BMI) of college women	114
4.2.3	Relationship of (MET) or physical activity and emotional intelligence and its sub domain of college women	116
4.3.1	Mean scores of bulimia of underweight, normal weight, over weight and obese college women	120
4.3.2	Mean scores of oral control of underweight, normal weight, over weight and obese college women	121
4.3.3	Mean scores of dieting of underweight, normal weight, over weight and obese college women	124
4.3.4	Mean scores of eating attitude of underweight, normal weight, over weight and obese college women	126
4.3.5	Relationship of eating attitude and its sub domains to body mass index of college women	128
4.3.6	Relationship between (MET) or physical activity and eating attitude and its sub domains of college women	129
