S.No.	Content	Page No.
1	<i>CERTIFICATE</i>	II
2	<i>CERTIFICATION OF GUIDE</i>	III
3	<i>DECLARATION BY THE CANDIDATE</i>	IV
4	<i>ACKNOWLEDGEMENT</i>	V - VI
5	<i>DEDICATION</i>	VII
6	<i>ABSTRACT</i>	VIII
7	<i>TABLE OF CONTENTS</i>	IX - X
8	<i>LIST OF TABLES</i>	XI - XIII
9	<i>LIST OF FIGURES</i>	XIV - XV
10	Chapter – I : Introduction	1 - 20
11	Chapter – II : Review of Literature	21 - 54
12	Chapter – III : Aims and Objectives	55 - 57
12	Chapter – IV : Materials and Methods	58 - 77
14	Chapter – V : Observations and Results	78 - 162
15	Chapter – VI : Discussion	163 - 194
16	Chapter – VII : Summary	195 - 196
17	Chapter – VIII : Conclusion	197 - 198

18	Bibliography	199 - 205
19	Annexure – I : Information Sheet for participants	206 - 208
20	Annexure – II : Consent form	209
21	Annexure – III : Pre-Operative Checklist , Intra- Operative Checklist & Post- Operative Checklist	210- 217
22	Annexure – IV : Questionnaire	218 - 222

LIST OF TABLES

Table	Content	Page No.
1	Research Objectives, Research questions and Data collection Method	60
2	Case study tactics applied by research according to tactics quoted by Yin (2003) and Hartley(2004)	64
3	Documented SOP exists in the OT manual	81
4	Stages of Quality Management development and quality initiatives	84
5	Perioperative Care and related activities	85
6	Mode of Arrival of Patients	86
7	Staff Accompanied with patients	86
8	Patient Identity Verification	86
9	Document checking after arrival of patient in Pre –Operative Holding Room	88
10	Checking For Patient Preparation	89
11	Nursing Documentation	90
12	Structure Parameters for Operation Theatre readiness	90
13	Process Parameters for Operation Theatre readiness	92
14	Process Parameters before Induction of Anaesthesia	93
15	Process Parameters before Incision	94
16	Structure Parameters during Surgical Procedure (Intra-Operative)	95

17	Process Parameters before Transferring out the Patient	96
18	Structure Parameters in Post-Operative Recovery Room	97
19	Process Parameters in Post-Operative Recovery Room	98
20	Arrival of Patient in Preoperative Holding Room	113
21	Patient accompanied by	113
22	Patient identification method by Pre-operative Nurse	113
23	Document checking after arrival of patient in Pre –Operative Holding Room	114
24	Checking for Patient Preparation	115
25	Structure Parameters for Operation Theatre Readiness	118
26	Process Parameters for readiness of OT	120
27	Process Parameters before Induction of Anaesthesia	122
28	Process Parameters before Incision	124
29	Structure Parameters during Surgical Procedure (Intra-Operative)	126
30	Process Parameters before Transferring out the Patient	127
31	Structure Parameters in Post Operative Recovery Room	129
32	Process Parameters in Post Operative Recovery Room	131
33	Demographic Data of Participants	134
34	Work Experience in Operation Theatre	134
35	Description of Anaesthesiologists based on their personal characteristics in terms of frequency and percentages	135
36	Description of Surgeons based on their personal characteristics in terms of frequency and percentages	139

37	Description of Nurses based on their personal characteristics in terms of frequency and percentages	143
38	Fisher's exact test for association of demographic data of Anaesthesiologists with their perception of healthcare professionals about the factors responsible for sustainable quality management system (QMS)	146
39	Fisher's exact test for association of demographic data of Surgeons with their perception of healthcare professionals about the factors responsible for sustainable quality management system (QMS)	147
40	Fisher's exact test for association of demographic data of nurses with their perception about the factors responsible for sustainable quality management system (QMS)	148
41	Analysis of Variance for Multivariate one way MANOVA	149
42	Post Hoc Tests	152
43	ANOVA to rank the factors according to the perception of Anaesthesiologists	155
44	ANOVA to rank the factors according to the perception of Surgeons	155
45	ANOVA to rank the factors according to the perception of Nurses	156
46	Summary of the ranking the factors according to the perception the health professional	156
47	Correlation Matrix	158
48	KMO and Bartlett's Test	159
49	Communalities	160
50	Total Variance Explained	161
51	Component Matrix^a	162

LIST OF FIGURES

Figure	Content	Page No.
1	Types of Quality	6
2	Dimensions of Quality of Care : Proposed by Institute of Medicine	8
3	Evolution of Quality in Healthcare	13
4	Development of concept of Quality in Healthcare	16
5	Process flow of Data collection	71
6	Preoperative Process Flow	72
7	Intra-operative& Post- operative Process Flow	73
8	Process of Qualitative Data Analysis	76
9	Thematic presentation of key informant's interview data	79
10	Thematic representation of Qualitative data Analysis to explore the causes of gaps in Perioperative Care	102
11	Qualification of Anaesthesiologists	136
12	Designation of Anaesthesiologists	136
13	Gender of Anaesthesiologists	137
14	Age of Anaesthesiologists	137
15	Experience of Anaesthesiologists in this hospital	138

16	Total Experience of Anaesthesiologists	138
17	Qualification of Surgeons	140
18	Designation of Surgeons	140
19	Gender of Surgeons	141
20	Age of Surgeons	141
21	Experience of Surgeons in this hospital	142
22	Total Experience of Surgeons	142
23	Qualification of Nurses	144
24	Gender of Nurses	144
25	Age of Nurses	145
26	Experience of Nurses in this hospital	145
27	Total Experience of Nurses	146
28	Mean Plot of Quality Management Structure	153
29	Mean Plot of Healthcare Professionals Willingness to Participate in Quality Improvement	154
30	Average normalized perception scores by section by profession	157
31	3P' of Sustainable Quality Management System	194
