

## Contents

S. N.	Chapters	Page No
1-	Introduction .....	1 - 4
2-	Acknowledgements .....	5 - 7
3-	Materials and Techniques .....	8 - 9
4-	Alphabetical list of new digenetic trematode parasites with their host, species, location and locality .....	10 - 12
5-	List of known digenetic trematode parasites recorded .....	13 - 19
6-	Review of literature .....	20 - 44
7-	Systematic list of the new digenetic trematode parasites to be described.....	45 - 48
8-	Systematic descriptions, occurrence and discussion of each parasite and a review of systematic position of its genus on latest informations.....	49 - 118
	Family : Waretrematidae Srivastava, 1937,.....	49 - 53
	<i>Anahapladena argenteusi</i> n. g., n. sp. ....	49 - 53

Family	: Heterophyidae Odhner, 1914.....	54 - 58
	<i>Haplorchoides edhanai</i> n. sp.....	54 - 58
Family	: Allocreadiidae Stossich, 1903.....	59 - 65
	<i>Allocreadium tictoï</i> n. sp.....	59 - 65
Family	: Opecoelidae Ozaki, 1925.....	66 - 69
	<i>Helicometrina russellisi</i> n. sp.....	66 - 69
Family	: Acanthostomidae Poche, 1926.....	70 - 74
	<i>Anaacanthostomum nebulosusi</i> n.g.,n.sp.....	70 - 74
Family	:Bucephalidae Poche, 1907.....	75 - 79
	<i>Paraprosorhynchus choirocephalusi</i> n.g.,n.sp.....	75 - 79
Family	: Cryptogonimidae (Ward, 1917)	
	Ciurea, 1933.....	80 - 83
	<i>Iheringtrema indicus</i> n. sp.....	80 - 83
Family	: Hemiuridae (Looss, 1899)	
	Luhe, 1901.....	84 - 118
	<i>Parahemiurus jagannathai</i> n. sp.....	84 - 87
	<i>Dinosoma singhi</i> n. sp.....	88 - 92
	<i>Genolinea guptai</i> n. sp.....	93 - 96
	<i>Elytrophalloides dasi</i> n. sp.....	97 - 100
	<i>Lecithocladium nigeri</i> n. sp.....	101 - 105

	<i>Lecithochirium madhaviae</i> n. sp.....	106 - 110
	<i>Plerurus pampusi</i> n. sp.....	111 - 114
	<i>Synaptobothrioides pentakotai</i> n. sp.....	115 - 118
9-	Summary.....	119 - 128
10-	References.....	129 - 211
11-	List of publications.....	212- 214
