

LIST OF TABLES

<i>Table No.</i>	<i>Titles</i>	<i>Page No.</i>
Table 1.1:	Underweight, Stunting and Wasting, by Global Region, 2000-2006	5
Table 1.2:	Trends in Nutritional Status of Children	10
Table 1.3:	Productivity Losses due to Malnutrition in India	11
Table 2.1:	Country Experiences in Community-Based Programs	43
Table 2.2:	Outcomes and Resources in Selected Programs	44
Table 3.1:	Supplementary Nutrition Norms	53
Table 3.2:	Coverage of Anganwadi Centres by State	63
Table 3.3:	Percentage of Living Children under Age Six Years who received any Service from an AWC in the last 12 Months	64
Table 3.4:	Utilization of ICDS Services: Supplementary Nutrition	65
Table 3.5:	Utilization of ICDS Services: Immunization and Health Check-ups	66
Table 3.6:	Utilization of ICDS Services: Early Childhood Care	67
Table 3.7:	Utilization of ICDS Services: Growth Promotion	68
Table 5.1:	Variables of the Study	91
Table 6.1:	Description of Independent and Dependent Variables	96
Table 6.2:	Impact of Program on Children (Dependent Variable: WAZ)	105
Table 6.3:	Impact of Program on Children (Dependent Variable: HAZ)	106
Table 6.4:	Impact of Program on Girls (Dependent Variable: WAZ)	107
Table 6.5:	Impact of Program on Boys (Dependent Variable: WAZ)	108
Table 6.6:	Impact of Program on Girls (Dependent Variable: HAZ)	109
Table 6.7:	Impact of Program on Boys (Dependent Variable: HAZ)	110
Table 6.8:	Impact of Program on Children in Age 0-11 Months (Dependent Variable: WAZ)	111
Table 6.9:	Impact of Program on Children in Age 0-11 Months (Dependent Variable: HAZ)	112
Table 6.10:	Impact of Program on Children in Age 12-35 Months (Dependent Variable: WAZ)	113

<i>Table No.</i>	<i>Titles</i>	<i>Page No.</i>
Table 6.11:	Impact of Program on Children in Age 12-35 Months (Dependent Variable: HAZ)	114
Table 6.12:	Impact of Program on Children in Age 36-59 Months (Dependent Variable: WAZ)	115
Table 6.13:	Impact of Program on Children in Age 36-59 Months (Dependent Variable: HAZ)	116
Table 6.14:	Impact of Program: Andhra Pradesh (Dependent Variables: WAZ and HAZ)	117
Table 6.15:	Impact of Program: Assam (Dependent Variables: WAZ and HAZ)	118
Table 6.16:	Impact of Program: Gujarat (Dependent Variables: WAZ and HAZ)	119
Table 6.17:	Impact of Program: Haryana (Dependent Variables: WAZ and HAZ)	120
Table 6.18:	Impact of Program: Kerala (Dependent Variables: WAZ and HAZ)	121
Table 6.19:	Impact of Program: Madhya Pradesh (Dependent Variables: WAZ and HAZ)	122
Table 6.20:	Impact of Program: Maharashtra (Dependent Variables: WAZ and HAZ)	123
Table 6.21:	Impact of Program: Punjab (Dependent Variables: WAZ and HAZ)	124
Table 6.22:	Impact of Program: Rajasthan (Dependent Variables: WAZ and HAZ)	125
Table 6.23:	Impact of Program: Tamil Nadu (Dependent Variables: WAZ and HAZ)	126
Table 6.24:	Impact of Program: Uttar Pradesh (Dependent Variables: WAZ and HAZ)	127
Table 6.25:	Impact of Program: West Bengal (Dependent Variables: WAZ and HAZ)	128
Table 6.26:	Impact of Program by Exposure to ICDS	129
Table 6.27:	Program Impact: Logistic Regression Predicting Probability of Being Underweight	130
Table 6.28:	Program Impact: Logistic Regression Predicting Probability of Stunting	131

<i>Table No.</i>	<i>Titles</i>	<i>Page No.</i>
Table 6.29:	The estimated effect of the ICDS program on z-score of children using child-level data, with and without propensity score matching	132
Table 7.1:	Profile of Children According Registration Status at AWC	157
Table 7.2:	Logistic Regression Results Predicting Registration at AWC	158
Table 7.3:	Logistic Regression Results of Factors Predicting Registration at the AWC with Different Categories of AWC Quality	161
Table 7.4:	Profile of Children According Attendance Status at AWC	164
Table 7.5:	Logistic Regression Results of Factors Predicting Attendance at the AWC with different Categories of AWC Quality	165
Table 7.6:	Logistic Regression Results of Factors Predicting Attendance at AWC with Different Categories of AWC Quality	167
