Chapter 1 Introduction

1.1 Electronic Distribution System an Overview ............................................................ 1
1.2 The Development of Electronic Distribution System................................................ 2
1.3 Rationale for the Study ............................................................................................. 3
1.4 Aims of the Study ...................................................................................................... 3
1.5 Research Problem Statement ................................................................................... 3
1.6 Research Gaps ........................................................................................................... 4
1.7 Research Objectives .................................................................................................. 4
1.8 Research Scope ......................................................................................................... 5
1.9 Organisation of the Thesis ........................................................................................ 5

Chapter 2 Literature Review

2.1 Introduction ................................................................................................................ 7
2.2 Past reviewed articles on ICT in Hospitality Industry ................................................. 7
2.3 Research on ICT in Hospitality Industry .................................................................... 8
2.4 Research on ICT Technology Adoption in Hospitality Industry .............................. 9
2.5 Technology Adoption and Employees Motivation in Hospitality Industry ............. 11
2.6 Changing EDS Technology Landscape .................................................................... 12
2.7 Technology Adoption Models .................................................................................... 13
Chapter 2 Models considered for Study

2.8 Models considered for Study

2.8.1 Technology Acceptance Model

2.8.2 Technology-Organization-Environment Framework (TOE)

2.9 Identification of Construct from the Literature

Chapter 3 Research Hypotheses and Proposed Conceptual Model

3.1 Introduction

3.2 Interrelationship among the Constructs

3.3 Hypotheses of the Study

3.4 Proposed Conceptual Model of integrated TAM and TOE for EDS Technology Adoption

3.5 Direct and Indirect Effects between Constructs in the proposed Conceptual Model

Chapter 4 Research Methodology

4.1 Introduction

4.2 Research Design

4.3 Research Approach

4.4 Instrument Development and Structure

4.5 Pilot Test

4.6 Validity

4.7 Sampling Plan

4.8 Survey Administration

4.9 Examining Data for Analysis

4.10 Data Analysis

Chapter 5 Quantitative Data Analysis and Results

5.1 Introduction

5.2 Demographic Characteristics of the Sample

5.2.1 Presentation of Demographic Information

5.2.1.1 Age wise Distribution of Respondent

5.2.1.2 Grade wise Distribution of Respondent

5.2.1.3 Education wise Distribution of Respondent
