I owe my debt and would like to express deep feelings of gratitude to accomplish the research program with the support and direction of several persons. This challenging and rewarding experience definitely helped me to grow in character as well as academically. It would never have become reality without the support, advice and encouragement of teachers, friends and colleagues. My heartfelt thanks and deep sense of appreciation to all the people mentioned here and other whose names I might have omitted unwittingly.

First and the foremost, I would like to express my deep sense of gratitude to my research supervisor Professor Rajiv Kapoor for his enthusiastic encouragement, inspiring support and guidance, scientific or otherwise, throughout the different stages of my doctoral investigations. His commitment and enthusiasm has motivated me to a large extent. I specially thank him for being kind and considerate toward me throughout the course work. It was a fortunate and unforgettable experience to work under his reflective and revered guidance.

I am thankful to my Ex-Director Dr. P K Saxena for permitting me to pursue research work and the cooperation extended during the course. I would like to thank Mr. Ashok Kumar Bhatuja, Associate Director, SAG, DRDO and Mr. Kuldeep Singh, Scientist, CRL for their kind help and wisdom. With great pleasure I express my heartfelt gratitude for their advice, fruitful discussions, numerous suggestions, constructive criticism, and constant support throughout the period of my research.

Above all, I owe a debt of gratitude to my parents and family members for their encouragement and blessings. The inspiration from them became the light on the way
to the completion of this work. I invariably fall short of words to express my deep sense of gratitude to my wife, Dr. Raminder Kaur, for her unflinching support, constant encouragement and for always being there for me. I am thankful to my daughters Sukhleen and Harmehar for being so adjusting and understanding.

Thanks are also due to all the people who have extended their helping hands directly or indirectly at DTU and SAG. I would like to thank all friends outside DTU and SAG, for their patience with me during this time.

My apologies if I have inadvertently omitted anyone to whom acknowledgement is due.

GURJIT SINGH WALIA
