Acknowledgement

I wish to thank my esteemed teacher and joint supervisor, Professor N. D. Chakraborty, Retired Professor of Mathematics, University of Burdwan, for suggesting the interesting problems involving Tensor integration theory and related topics which have been investigated in this thesis. His words of advice and encouragement were of great value. Regular discussions with him about different aspects of the research work enable me to write the thesis in the present form.

I also wish to express my grateful thanks to my joint supervisor Dr. A. A. Shaikh of the Department of Mathematics, University of Burdwan, who gave valuable comments and suggestions to write the thesis in the present form.

I am specially thankful to my brother Arup Kr. Basu and my family members for their help and encouragement.

I also wish to thank the respected teachers and non-teaching staff of the Department of Mathematics, University of Burdwan for their help and co-operation.

Finally, thanks are also due to the University of Burdwan, for giving me a permission to register as a candidate for Ph. D. Degree.
