

■ Achievements

1. Proposal for an experiment titled " Understanding the fragmentation and ionization of PAHs and PANHs molecules under high-energy proton collisions" was accepted and the experiment was done at Inter University Accelerator center, New Delhi, India, 25th May-5th June, 2015.
2. Attended "SAKURA science exchange program in science" administered by Japan Science and Technology and hosted by Tokyo Metropolitan University during January 21-30, 2016.
3. Proposal to visit Atomic and Molecular Physics lab, RIKEN was accepted, took part in an experiment and work independently with Riken Electrostatic Ion Storage Ring (RICE), RIKEN, Japan 1st February - 4th March, 2016.
