Acknowledgement

I must first thank my thesis advisor and guide Dr. V.L. Mathe for providing necessary and valuable guidance during my research work. I would also like to express my deep sense of gratitude to my co-guide Dr. (Mrs.) S.V. Bhoraskar for her patience guidance and warm encouragement that made this thesis possible. I was benefited from their expertise in many aspects of scientific research. Their timely comments and extensive discussions led to the development of good quality work.

I am thankful to the Head, Department of Physics, Savitribai Phule Pune University, Prof. (Mrs.) A. L. Kshirsagar for providing me the necessary facility and elegant environment during the entire period of my research work. I acknowledge the former Heads of the Department of Physics, Prof. S. I. Patil, and Prof. V. N. Bhoraskar for their constant encouragement and help. I am very thankful to the members of the review committee Prof. B. Dey, Prof. D. S. Joag and Dr. D. S. Sidhye for providing me the necessary guidance and keeping the track of my research work. Their suggestions and discussions were very fruitful in enhancing the overall quality of the research work.

I am thankful to the Management and Principal Dr. D. N Sheth of Sir Parashurambhau College, Pune for relieving me under the UGC scheme of Faculty Improvement Programme and showing confidence in me to carry out the research work. I am also thankful to former Head, Department of Physics, (Late)Dr. S. N. Sadakale for his constant inspiration and motivation.

I would like to express my sincere appreciation to Dr. S. K. Bhatt, Senior Scientist, National Chemical Laboratory, Pune, who helped me in understanding the electro-kinetic properties of nanoparticles using zeta potential analyzer.

I would also like to acknowledge Dr. P. M. Dongre, Head, Department of Biophysics, University of Mumbai, for giving me technical inputs in understanding interaction of biomolecules with nanoparticles.

I am thankful to Prof. Jae-Jin Shim and Dr. R. N. Bulakhe of Supercritical Fluids Nanoprocess Laboratory, School of Chemical Engineering, Yeungnam University, Gyeongsan, Gyeongbuk 712-714, Republic of Korea for providing timely HRTEM images of nanoparticles.

My sincere acknowledgement to Miss. Priyadarshani Ekambe, Research Scholar, Department of Biology, Swami Ramananad Teerth Marathwada University, Nanded for extending her help in carrying out the work related to anti-bacterial activity of nanoparticles. I would also like to
thank Dr. Deepak Bankar from Department of Physics, S. P. Pune University, for helping me in carrying out the non-linear analysis of the adsorption data.

My sincere thank to all my colleagues from Department of Physics, Sir Parashurambhau College, especially, Mr. N. K. Wagholikar for his constant help and encouragement. I would also like to express my gratitude to all my colleagues from Department of Chemistry, Sir Parashurambhau College, especially, Dr. Mhaske and Dr. Garud for extending their support for synthesis and chemicals.

I am thankful to the administrative and non-teaching staff of Department of Physics, Savitribai Phule Pune University and Department of Physics, Sir Parashurambhau College, Pune for understanding and extending their support.

My special thank to UGC, New Delhi, for providing financial support and granting leave under XII plan for pursuing Ph.D degree.

I would like to thank all my lab mates Mr. Nilesh Kanhe, Dr. Ashok Nawale, Dr. Arjun Tarale, Ms. Ashwini Datar, Mr. Prashant Janrao, Mr. Premkumar, Mr. Suyog Raut, Ms. Supriya More, Dr. Avinash Bansode, Mr. Manoj Patil, Ms. Deepali Ghone for their unwavering support both scientifically and emotionally. They were instrumental in creating friendly and cheerful atmosphere in the laboratory and provided necessary help and encouragement when ever required. Also special thanks to all my friends from other research groups Dr. Mandlik, Avinash Deware, Sachin Suryawanshi, and Manorama Lakhe for all time support and encouragement.

Deep sense of gratitude to my entire family members who were sincerely involved in the development of my vision. I would like to especially express my gratitude to my father Mr. Vitthal Bhosale and mother Ms. Shobha Bhosale for rendering in me the quality of sincerity and hardwork. They have been my source of motivation and inspiration. I would also like to thank my father in law Mr. Anil Pawar and mother in law Ms. Ashwini Pawar for their constant encouragement and support.

Finally and certainly not the least I would like to thank my wife Ms. Amruta and my lovely kids Vasundhara and Rajdeep for their constant support and help without whom this work would not have been possible.

Shivaji Vitthal Bhosale
