List of Tables

Table 2.1. Gelation studies of compounds 11a-c in organic solvents and oils.......................................................................................................................... 34

Table 3.1. Gelation studies of compounds 4a-c in organic solvents and oils........ 71

Table 4.1. Gelation studies of compounds 4a and 4b in organic solvents and oils 95

Table 5.1. Minimum inhibitory concentration of the compounds 4a and 4c on planktonic growth and biofilm formation ......................................................... 134

Table 5.2. Abbreviation and nature of thin film coating materials prepared........... 144

Table 6.1. Gelation studies of compounds 3a-c in organic solvents and oils ....... 157

Table 6.2. Metal ion induced phase and morphological transition of gel formed by GAP in 1,2-dichlorobenzene ................................................................. 169
