

Acknowledgment

I am extremely happy and pleased that my dream of entering into Research work is coming true. I now know why great Scientist forget their social life once they enter into science laboratory. But my work in the laboratory and outside was made easy by Dr. S.B. Barbuddhe, Principal Scientist at ICAR-National Institute of Biotic Stress Management, Raipur.

He has a knack of extracting and exploring the hidden skills and talents in his students. He is very kind but at the same time, stern and disciplined as far as perfection in the work is concerned. A person who can be a model to his students. I am grateful to you Sir for all efforts you have invested in me.

I am thankful to my VC's Nominee, Dr. Sandeep Garg, Associate Professor, Department Of Microbiology, Goa University, for his constructive suggestions and taking every step to go deep and deep into the matter related to topic and research.

My gratitude goes to Dr. Saroj Bhosle, Retired Dean of Life Science and Professor of Microbiology Department, Goa University for encouraging and supporting me to take up research work

I thank Dr. N.P. Singh, Director, Indian Council of Agricultural Research Complex for Goa for providing facilities to carry out research work at the Institute. I am thankful to Dr. Z.B. Dubal, Senior Scientist, IVRI, Izatnagar, for his co-operation during the work.

I also thank Mr. Salim Veljee, Director, Directorate of Food and Drug Administration, for allowing me to use the chemicals and conduct a part of my research work in the FDA laboratory. I would like to express my gratitude to Mrs. Nilima Mishal, Scientific Officer, FDA Laboratory, for her assistance and suggestions whenever necessary.

I am also thankful to Dr. Swapnil Doijad, who inspite of his busy schedule gave his valuable time for me and provided an insight into the writing of thesis. I am also thankful to my colleagues Abhay Raorane, Ajay Pathak, Dr. Shubhada Chothe, Prathamesh Ghavnalkar and Priyanka Naik Parrikar for their support and useful suggestions and advices during the research work.

The collection of fermented cashew apple juice samples from fields was possible because of the help and co-operation of various persons especially, Prof. Deepak Karmalkar, Mr. Narayan Mangeshkar, Mr. Roy, Mr. Andrew, Mr. Bhakta, Mr. Kamat, Mr. Hanumant Pednekar and Mr. Victor.

I must thank Dr. Swapnil Arsekar M.D. (Medicine) and Dr. Sarika Arsekar M.D. (Gynaec.) for recommending ways and means to relive stress and strain to realize the dream. Prof. Rajendra Arsekar (Ex. Principal of D.M's College), my uncle, for reminding me every now and then how important it is to submit the thesis well in time. Whenever I was depressed, Ms. Sujata Arsekar, my aunt gave examples of others to make me lively. Thank you my uncle, Mr. Mahableshwar Prabhu Khorjuvenkar for trying to build up my courage to complete research work and Mr. Ashok Prabhu Khorjuvenkar for his great support.

Friends make life worthwhile. I am grateful to Priya Narvekar, Surbhi Mandrekar, Nandini Dabholkar, Krunal Dangui, Dr. Teja Gaonkar, Dr. Trelita, Dr. Meghanath Prabhu, Adarsh Shettigar and my cousins Richa, Samiksha, Raj, Vipul, Goldie, Rahul and Gayatri for their moral support. I am indeed indebted to my sister Diksha for her invaluable help and sharing views to boost my pensive mood and helping me to collect cashew apple juice samples. Shriyan and Sandesh, Diksha's colleagues, were a great help to me. Thank you.

The whole credit of joining research field goes to my father, Mr. Nagesh and my mother Mrs. Geeta. I thank for their understanding, wisdom, patience, enthusiasm and encouragement and for pushing me further than I thought I could go. I would like to place on record that their trust and belief in me will be rewarded.

I must express my gratitude to my late grandparents and my late aunt Pramodini for nurturing me and showing little extra affection so that I may attain my goal.

I am thankful to the Almighty for giving me good health for all these years and helping me to complete my research work and keeping me grounded throughout the process.

Supriya Nagesh Prabhu Khorjuvenkar
