At this moment, I bow my head and acknowledge with a deep sense of gratitude the divine presence of God Almighty whose grace endowed me with inner strength and confidence and blessed me during the course of the research work. His divine presence has been a motivating, guiding and directing factor in all my endeavours.

The investigator places on record her immense gratitude and indebtedness to Late Dr. Usha Chandrasekhar M.Sc., PhD (Purdue), Former Dean, Professor and Head, Department of Food Science and Nutrition, Avinashilingam University, Coimbatore under whose guidance the study was envisaged. Her experience, scholarly guidance and valuable suggestions helped the investigator immensely in the conduct of the research. Her ardent scrutiny, expert advice and ever willing help in the construction of the study framework are immensely acknowledged.

With a deep sense of gratitude, the investigator acknowledges the generosity, guidance and support extended by Dr. N. Kamalamma, Professor of Home Science (Retd.), Gandhigram Rural Institute, Tamilnadu. Without her valuable advice, continuous support and assistance this doctoral work would have been impossible to complete. Her critical scrutiny of the manuscript and ever willing help has played a pivotal role in the improvement of the thesis. The investigator places on record her sustained and valuable guidance, constructive suggestions, unfailing patience, friendly approach, constant support and critical assessment.

The investigator is extremely grateful to Dr. V. Indira, Head, Department of Home Science (Retd.), College of Horticulture, Vellanikkara
for the critical evaluation of the manuscript. Her learned counsel, valuable suggestions and critical evaluation formed the basis of this thesis.

The author wishes to express her sincere gratitude to Dr. Sajimole Augustine M, Principal, St. Teresa’s College for the support and encouragement extended for the successful completion of the study. The investigator is indebted to Rev. Dr. Sr. Vinitha, Director, St. Teresa’s College, and the management of St. Teresa’s College, Ernakulam for all the support extended during the period of research. I am obliged to Dr. Sheelamma Jacob. K, Associate Professor and Head, Department of Home Science, St. Teresa’s College for the constant encouragement and words of support during the period of study. Her words of wisdom encouraged me to keep calm even in the midst of a tempest.

The author places on record the support extended by Dr. Bright Singh, Former Director, School of Environmental Studies, CUSAT, Kochi for the technical expertise with regard to the microbiological assay of the food samples. The investigator is indebted to University Grants Commission for the funding provided to conduct the study. Sincere thanks to Dr. E.S. Jeevanand, Associate Professor in Statistics, Union Christian College, Aluva for the data analysis. With gratitude I acknowledge the support extended by Chef Jose Varkey, Corporate Chef, CGH Earth Group of Hotels, Chef Jayakumar, Corporate chef, Abad Group of Hotels and Dr. N. Anandavalli, Managing Director, Food Safety Solutions International for the sharing words of wisdom with the vendors. Special words of appreciation are due to Mrs. Fiza Zoheb for all the assistance rendered during the study period.

With gratitude and affection, I recall the boundless affection, constant encouragement, warm blessings, moral support, unfailing inspiration and
motivation from my parents Mrs. and Mr. H.T. Poojara. I acknowledge the words of support and encouragement from my sisters which helped me overcome days that looked insurmountable. Immense thanks are due to my husband and children who persevered with me during the period of research. I gratefully acknowledge my colleagues at the Department of Home Science, St. Teresa’s College, Ernakulam for the moral support and encouragement during the period of study.

The author expresses her sincere thanks to the street food vendors who took part in the study and to all those who helped and assisted in the field during data collection. To the vision of safe street food I dedicate this research work.

Rashmi H Poojara
