

Table of Contents

List of Figures	viii
Chapter 1 Introduction	1
1.1 Organization of Knowledge	
1.1.1 Absolute Syntax	3
1.1.2 Relevance of Facet and Faceted Classification	5
1.1.3 Cognitive Science and Information Retrieval	6
1.2 Statement of the problems	6
1.3 Research Questions	7
1.4 Hypotheses	8
1.5 Methodology	8
1.6 Objectives of the Study	9
1.7 Organization of Thesis	9
Chapter 2 How Human Mind Thinks	11
2.1 Bistable Perception	11
2.1.1 Necker Cube	11
2.1.2 Rubin's Face/Vase illusion	13
2.1.3 Duck-Rabbit problem	13
2.2 Steven Pinker and How the mind works	15
2.3 Fodor's Criticism to Pinker	17
2.4 Pinker's Reply to Fodor	17

2.5 Fodor's Reply to Pinker	18
2.6 Penrose on Computational Theory of Mind	18
Chapter 3 Linguistic Universals and Linguistic Relativity	20
3.1 Linguistic Universals	20
3.1.1 Greenberg's Approach	22
3.1.2 Noam Chomsky (1928 -)	24
3.1.2.1 Deep Structure and Surface Structure	25
3.1.2.2 George Lakoff on Chomsky	28
3.1.4 Jerry Fodor and Language of Thought	31
3.2 Linguistic Relativity	
3.2.1 Edward Sapir (1884-1939)	32
3.2.2 Benjamin Lee Whorf (1897-1941)	34
Chapter 4 Culture and Academic Disciplines	39
4.1 Definition of Culture	40
4.2 Cultural Relativism	41
4.3 Academic Disciplines as Culture	42
4.4 Two Cultures and C.P.Snow	44
4.5 Culture and Thought	45
4.6 Multidisciplinary-Multiculturalism-Multilingualism	49
4.7 Nisbett and Geography of Thought	50

Chapter 5 Worldviews	56
5.1 Western Worldview	59
5.2 Aristotelian Worldview	62
5.3 Newtonian Worldview	64
5.4 Darwinian Worldview	65
5.5 Creationism	66
5.6 Worldview of Science	66
5.7 Future worldviews	67
Chapter 6 Quantum Cognition	69
6.1 Quantum Theory	69
6.2 Information Retrieval and Uncertainty	70
6.3 Quantum Mind	75
6.4 Brain Dynamics	76
Chapter 7 Conclusions	80
7.1 Conclusions	80
7.2 Limitations of the Study	80
7.3 Further Research	81
References	82
