

ACKNOWLEDGEMENT

I have succeeded in completing my PhD thesis due to grace of the almighty and blessings of all my well wishers. The completion of this thesis is the end of my journey in obtaining my Ph.D. Much as happened and changed in the time I've been involved with this work. Many have questioned whether I would finish my PhD, as have doubted my commitment to it. I, on the other hand, barring losing confidence so many times, I've lost count, knew I'd complete my PhD. I just had to do it in my own time and on my own terms. Unfortunately due to life's challenges and the changes that followed, my thesis could not always be the number one priority. At any rate, I have finished, but not alone. I could not have succeeded without the invaluable support of several people. At the end of my thesis I would like to thank all those people who contributed in many ways to make this thesis possible and an unforgettable experience for me.

*First and foremost, I would like to express my heartfelt special thanks and sincere gratitude to my PhD Supervisor, **Dr. Saroj Kumar Singh**, HOD and Chief scientist, Advanced Materials Technology Department, CSIR-IMMT, Bhubaneswar for his invaluable guidance, esteemed supervision and sharing immense knowledge with me throughout my ongoing PhD work. It is indeed my pleasure and privilege to work under his direct supervision. I am indebted to him for his valuable time and support when I was in dire need of supervision at the completion stage. His unflinching courage and conviction will always inspire me, and I hope to continue to work with his noble thoughts.*

*I am also thankful to the Director "**Prof. B K Mishra**" CSIR-IMMT, Bhubaneswar for allowing me to pursue my PhD work, in my field of interest at India's premier R&D organization. I take this opportunity to sincerely acknowledge the Council of Scientific and Industrial Research (CSIR), Government of India, New Delhi, for providing financial assistance in the form of Senior Research Fellowship which buttressed me to perform my work comfortably.*

*I am thankful to the Dean (Research) "**Prof. (Dr.) P K Nanda**" Institute of Technical Education and Research (ITER), SOA (Deemed to be University), Bhubaneswar who gave me an opportunity to pursue my PhD work at IMMT, Bhubaneswar after qualifying my PhD Registration. My sincere thanks and*

appreciation to the Doctoral Scrutiny

Committee members for their helpful suggestions and remarks, which increased readability and reduced ambiguity to enrich my doctoral work. I am also thankful to the Registrar, Examination section and all the faculty members of SOA University, for extending every possible help, to me.

My gratitude is also extended to **Dr. Dilip Ku Mishra**, Assistant Professor, Department of Physics, ITER, Siksha 'O' Anusandhan (Deemed to be University) who has helped me a lot for completing my thesis. I gratefully acknowledge his immense knowledge, valuable suggestions and personal attention which he has provided me for a good and smooth format for my Ph.D thesis. My special thanks also to **Dr. Sisir Mantry**, Scientist, IMMT, Bhubaneswar, for his constant support throughout my PhD work. I am very much thankful to all staff members of CSIR- IMMT and my friends who have helped me in some or the other way during my research work.

Of course no acknowledgments would be complete without giving thanks to my parents. At this moment I pay high regards and express my very profound gratitude to my parents and pay homage to my father Late **Banshidhar Mohapatra** who always dreamed for successful completion of my Ph.D. I wish his soul roots in peace and solace in the heaven.

I must acknowledge with tremendous and deep thanks, my Husband **Er. Manoj Ku Dash**. In spite of lots of challenges, I've been able to complete this long journey through his love, patience, support and unwavering belief in me. He has taken care of whatever needed tending to without complaining, just so I could focus on completing my thesis. I could not have completed this journey without him by my side. There are no words that can express my gratitude and appreciation for all he has done for me. Your complete and unconditional love carries me through always. Last, but certainly not least, cute smile of my son **Master Soumyajit** was my inspiration and I am thankful to him for his patience and sacrifices during the final stages.

Finally, I express my profound thanks to almighty for making it this far.....

Sangita Mohapatra
