Acknowledgements

This work would not have been possible without the guidance, encouragement and help of many people. But firstly I would like to thank God for making this possible for me. Secondly I would like to thank Dr. Ashes Gupta, my Research Supervisor for his constant support, guidance and patience. Without his illuminating guidance this work would not have been possible. I would also like to thank all my teachers in the Department of English, Tripura University for their support and help. My family- my mother and brother deserve special mention in this regard. Infact, I cannot thank them enough for encouraging me. My mother has been a constant support system. My brother was not near but whenever I was not sure about myself, he was there boosting me up. I must also thank Abhishek who has always shown the brighter side and made me believe that I can do it. I must also thank Sarmistha di who has always helped me out in some way or the other. Finally thanks to my friends for their help and support.
