Acknowledgement

A task of this magnitude cannot be accomplished without support and guidance from leaders, mentors, friends and family. I owe my gratitude to all that I have acknowledged below and to many others whose names I have not included for reasons of brevity.

First and foremost, I would like to acknowledge the support and guidance of Dr. Chenraj Roychand, mentor par-excellence, during the entire period of 17 years of my privileged association with him.

Dr. N. Sundararajan, Vice-Chancellor, JU and Dr. Jayagopal Uchil, Director-Academics, JU, were more than just pillars of support and guidance. They were part of the journey. There were times when they were more excited than me when I shared some interesting results of the study. Many thanks to Dr. Sandeep Sastry, Pro-Vice Chancellor, JU, from whom I have learnt something new every time I have interacted with him and for supporting me in this task. Thanks are due to Prof. Mithileshwar Jha, Pro-Vice Chancellor & Director – Management Studies, Dr. Easwaran Iyer – Dean, Commerce, Dr. Dinesh Nilkant, Dean – Management, Dr. Harold Patrick, Dean – Academics, CMS Business School, Prof. Manjunath, Controller of Exams, Shri. Santhosh, Joint Registrar, Shri. Parswanath – Director – Infrastructure & Projects and Ms. Aparna Prasad – Director, Corporate Strategy, Human Resources and Communications for their constant support.

I wish to acknowledge the immense contribution made by my guide, Dr. Sashi Sivramkrishna in providing valuable guidance and more than anything else for being patient with me during all stages of this research study.

I would like to express gratitude to Dr. Uma Warrier, Professor of OB and HR and Chief Counselor, Jain University, for instilling a sense of urgency and for providing valuable guidance during critical stages of the work with her uncanny grasp of the nuances of
research methods. I would like to thank Dr. B. Raghavendra Rao for his support, Dr. MM Bagali for his encouragement, Dr. Ramkrushna Panigrahi for his inputs and Prof. GLS Lakshman for introducing me to the world of microfinance in 2008.

It would not have been possible to collect and process such a huge volume of data without help from Shri. Harsha Srinivas and Sriyuths, Vinay, Swamy, and Ramesh, all of who deserve special mention.

My wife, Jyoti and my kids Pooja, Arun, Abhishek, Aarti and little Viyaan have provided invaluable support and inspiration as always. I am beholden to them.

Finally, this work is dedicated to my late mother, Smt. Vijaya Vaidyanathan, who was with me through thick and thin, over the years.

With all humility, I would like to state that this research work will be useful to researchers, the Government, NGOs, MFIs, Banks, Donors and other organizations involved with assisting the poor to eke out a decent living.

Bangalore, October 2017.
