

List of figures

| Sl. no. | Figure captions | Page no. |
|---------|---|----------|
| 1 | The initial biochemical events of sepsis | 3 |
| 2 | <i>S. aureus</i> SEM image | 9 |
| 3 | Staphylococcal infections | 11 |
| 4 | Development of antibiotic resistant strain of <i>S. aureus</i> | 14 |
| 5 | Structure of <i>S. aureus</i> cell wall | 18 |
| 6 | Lysozyme structure and its binding sites | 21 |
| 7 | Lysozyme transcriptome profile | 23 |
| 8 | Lysozyme mechanism of action | 26 |
| 9 | Growth curve analysis in presence and absence of lysozyme | 44 |
| 10 | Lysozyme mediated lysis assay in phosphate buffer saline (PBS) | 46 |
| 11 | Scanning electron microscopic images of <i>S. aureus</i> strains after lysozyme exposure | 48 |
| 12 | Scanning electron microscopic images of <i>S. carnosus</i> strains after lysozyme exposure | 50 |
| 13 | Survival of $\Delta oatA$ and SA113 in human blood and synovial fluid | 52 |
| 14 | Survival of $\Delta oatA$ and SA113 in human blood: Giemsa staining | 54 |
| 15 | Intra-cellular survival of $\Delta oatA$ and SA113 | 56 |
| 16 | Dot blot analysis & survival of <i>S. aureus</i> strains in anti-lysozyme antibody containing human blood | 58 |
| 17 | Giemsa staining of blood samples with or without anti-lysozyme antibody illustrating distribution of SA113 and $\Delta oatA$ in blood | 60 |
| 18 | <i>Drosophila melanogaster</i> as an infection model | 66 |
| 19 | Bacterial burden in different mice organs | 68 |
| 20 | Kidney abscess evaluation in $\Delta oatA$ and SA113 infected mice | 70 |
| 21 | Hematogenous route for septic arthritis: Clinical features | 72 |
| 22 | Hematogenous route for septic arthritis: Micro CT analysis | 74 |
| 23 | Clinical features clinical scoring, body weight and knee swelling measurement in local septic arthritis model | 76 |

| | | |
|----|--|----|
| 24 | Functional evaluation of the septic arthritis using extensor postural thrust (EPT) and open field test (OPT) | 78 |
| 25 | Radiology, histopathology and bacterial count | 80 |
| 26 | Cytokine expression of infected knee joint tissues | 82 |

List of tables

| Sl. no. | Title of tables | Page no. |
|----------------|---|-----------------|
| 1 | Lysozyme content in different human biological fluids | 22 |
| 2 | Bacterial strains and plasmids | 31 |
| 3 | Assay kits/reagents | 32 |
