3.4.	CLUSTER ANALYSIS	74
3.5.	DISTRIBUTION OF DISSOLVED INORGANIC NUTRIENTS	76
3.5.1.	Nitrogen	76
	3.5.1.1. Nitrite	79
3.5.2	Phosphorus	80
	3.5.2.1. Orthophosphate	81
4.	ORGANOCHLORINE PESTICIDES IN WATER AND SEDIMENTS	84
4.1.	BACKGROUND	84
4.2.	GLOBAL DISTRIBUTION	87
4.3.	PESTICIDE POLLUTION IN INDIAN RIVERS	90
4.4.	SOURCES OF PESTICIDE IN TAMIRAPARANI RIVER BASIN	91
	4.4.1. Organochlorine pesticides in water	93
	4.4.2. Residual levels in sediments	96
	4.4.3. Spatial and temporal distribution of OCPs in sediments	100
5.	MONITORING OF PATHOGENIC INDICATOR ORGANISMS	104
5.1.	INTRODUCTION	104
5.2.	HISTORY OF MICROBIAL CONTAMINATION	105
5.3.	EMERGING CONTAMINANTS	107
5.4.	INDICATIVE ORGANISM OF FAECAL POLLUTION	112
	5.4.1. Total Coliforms	112
	5.4.2. Vibrio like organisms	113

CHAPTER NO.	TITLE	PAGE NO
	5.4.3. <i>Escherichia coli</i>	114
	5.4.4. <i>Salmonella spp</i>	117
	5.4.4.1. Human health effects	117
	5.4.4.2. Source and occurrence	118
	5.4.4.3. Significance in drinking water	118
	5.4.5. <i>Shigella spp</i>	118
	5.4.5.1. Source and occurrence	119
	5.4.5.2. Significance in drinking water	119
	5.4.6. Faecal <i>Streptococci</i> and <i>Enterococci</i>	120
	5.4.6.1. Significance of the thermotolerant coliform: faecal <i>Streptococci</i> ratio	121
	5.4.7. <i>Pseudomonas aeruginosa</i>	122
5.5.	SIGNIFICANT RESULTS	124
5.6.	DISCUSSION	137
6.	SPATIAL AND TEMPORAL ASSESSMENT USING GEOGRAPHIC INFORMATION SYSTEM	143
6.1.	INTRODUCTION	143
6.2.	GLOBAL POSITIONING SYSTEM	147
6.3.	GIS APPLICATION	147
	6.3.1. Seasonal and temporal distributions of total dissolved solids	148
	6.3.2. Seasonal and temporal distributions of Sodium	149
	6.3.3. Seasonal and temporal distributions of Bicarbonate	149

CHAPTER NO.	TITLE	PAGE NO
	6.3.4. Seasonal and temporal distributions of Sulphate	152
	6.3.5. Seasonal and temporal distributions of Chloride	152
	6.3.6. Seasonal and temporal distributions of Nitrite	156
	6.3.7. Seasonal and temporal distributions of Orthophosphate	156
	6.3.8. Seasonal and temporal distributions of ΣOCPs in the water and sediments	159
7.	SUMMARY AND CONCLUSION	163
	7.1. BACKGROUND	163
	7.2. APPROACHES TO MONITORING	164
	7.3. SIGNIFICANT RESULTS	165
	7.3.1. Chemical composition of the Tamiraparani river	165
	7.3.2. Impact of pesticides on water and sediments	166
	7.3.3. Pathogen indicator organisms counts	167
	7.4. RECOMMENDATIONS FOR PATHOGENIC INDICATOR ORGANISMS	169
	7.5. CONCLUSION	171

LIST OF TABLES

Table No.	Title
1.1	Evaluation and history of EIA
2.1	Geological formations in the Tamiraparani river basin
2.2	Seasonal crop rotations in the Tamiraparani river basin
2.3	Methods followed for the sample analysis in the present study
2.4	Details of specific and chromogenic culture media used for quantitative bacterial analysis
3.1	Average chemical composition of Tamiraparani in comparison with South Asian and World rivers
3.2	Concentration of major ions and nutrients during premonsoon season
3.3	Concentration of major ions and nutrients during monsoon season
3.4	Concentration of major ions and nutrients during postmonsoon season
3.5	Concentration of major ions and nutrients during summer season
3.6	Correlation matrix for water quality parameters premonsoon and postmonsoon season
3.7	Varimax rotated factor analysis for water samples
4.1	Global distribution of organochlorine pesticide residues (ng l^{-1} and ng g^{-1})
4.2	Average concentration of OCPs (ng l^{-1}) in surface water samples (n=48)
4.3	Average of concentration of OCPs (ng g^{-1} -dw) in surface sediment samples (n=48)
5.1	Bacterial species and related diseases
5.2	Historical events in the provision of safe drinking water
5.3	International drinking water standards or guidelines

Table No.	Title
5.4	Bacteriological quality of drinking water
5.5	Descriptive statistics of pathogenic indicators in water samples
5.6	Descriptive statistics of pathogenic indicators in sediment samples

LIST OF FIGURES

Figure No.	Title
1.1	Environmental Impact Assessment flow chart
2.1	Sampling location map of the study area
2.2	Land use–land cover change mapping in the river basin
2.3	Land use–land cover change mapping in the river basin
2.4	(a) & (b) Sample collection locations
3.1	(a) Ternary diagram for anion relationship & (b) Ternary diagram for cation relationship
3.2	Box-Whisker plot showing variation of physiochemical parameters during (a) premonsoon and (b) postmonsoon seasons
3.3	Mechanism controlling chemistry of river water during premonsoon season (after Gibbs 1970)
3.4	Mechanism controlling chemistry of river water during postmonsoon season (after Gibbs 1970)
3.5	(a), (b) & (c) Scatter plot for major ion chemistry
3.6	Dendrogram for chemical parameters in water samples
4.1	Consumption of pesticides in India (1995 to 2005)
4.2	Spatial distribution of Σ OCPs in water samples
4.3	Spatial distribution of Σ OCPs concentration in sediments
4.4	Fractionation of DDTs in sediment samples
4.5	DDTs metabolite ratio in sediment samples
5.1	Species and relationship among indicator organisms
5.2	An average TVC counts in the river basin
5.3	Temporal variations of indicator organisms in upstream region
5.4	Temporal variations of indicator organisms in midstream region
5.5	Temporal variations of indicator organisms in downstream region
5.6	Upstream variation of indicator organisms in sediment samples
5.7	Midstream variation of indicator organisms in sediment samples

Figure No.	Title
5.8	Downstream variation of indicator organisms in sediment samples
6.1	Total dissolved solids in monsoon season
6.2	Total dissolved solids in summer season
6.3	Sodium concentration in monsoon season
6.4	Sodium concentration in summer season
6.5	Bicarbonate concentration in monsoon season
6.6.	Bicarbonate concentration in summer season
6.7	Sulphate concentration in monsoon season
6.8	Sulphate concentration in summer season
6.9	Chloride concentration in monsoon season
6.10	Chloride concentration in summer season
6.11	Nitrite concentration in monsoon season
6.12	Nitrite concentration in summer season
6.13	Orthophosphate concentration in monsoon season
6.14	Orthophosphate concentration in summer season
6.15	Organochlorine pesticide residues in water samples during monsoon
6.16	Organochlorine pesticide residues in sediment samples during monsoon
6.17	Organochlorine pesticide residues in water samples during summer
6.18	Organochlorine pesticide residues in sediment samples during summer

LIST OF ABBREVIATIONS

EMP	-	environmental management plan
ml	-	milli litre
mg l ⁻¹	-	milligram per litre
µg l ⁻¹	-	microgram per litre
µg g ⁻¹	-	microgram per gram
meq l ⁻¹	-	milli equivalents per litre
ppm	-	parts per million
gm	-	gram
ppb	-	parts per billion
m ²	-	square metre
Mm ²	-	million meter cube
m	-	meter
cm	-	centi meter
mm	-	milli meter
%	-	percent
Km ²	-	square kilometer
µS/cm	-	micro siemen per litre
MSL	-	mean sea level
MW	-	milli watt (10 ⁻³ watt)
t yr ⁻¹	-	ton per year
10 ⁶ t yr ⁻¹	-	million ton per year
t km ⁻² yr ⁻¹	-	ton per square kilometer per year
ha	-	hectare
µm	-	micro meter
eV	-	electron volts
m/z	-	mass to charge ratio
µA	-	micro ampere
Km ³	-	cubic kilometer
MT	-	metric ton
MLD	-	million litres per day
MPN	-	most probable number
dw	-	dry weight
