

Acknowledgement

The endless thanks goes to lord almighty for all the blessings he has showered onto me, which has enabled me to write this last note in my thesis work. Also during the period of my research work, I have been blessed by almighty with some important people who have spun a web of support around me. Words can never be enough in expressing how grateful I am to those incredible people in my life who made this thesis possible. Therefore, I would like to offer my sincere thanks to all of them. I am grateful to numerous people who have contributed towards shaping this thesis.

*At this moment of accomplishment, first of all I would like to express my special appreciation and thanks to my advisor "**Prof. Ashwani Koul**" Department of Biophysics, for the continuous support and motivation during my Ph.D. research work. His guidance on both research as well as on my career have been priceless. He has been generous with his knowledge, approachable to clarify doubts and willing to assist me overcome whatever hurdles I came across during my research work. He showed genuine interest in my career development. Under his guidance I successfully overcame many difficulties and learned a lot. I could not have imagined having a better advisor and mentor for my research work. I greatly appreciate the freedom you have given me to find my own path, the guidance and support you offered when needed. Thank you for your kind suggestions, ideas, moral support and patience for guiding me during my thesis work. "Everything I am, I owe to you, I owe it all to you."*

*I am deeply indebted to my co-supervisor and chairperson "**Prof. M. L. Garg**" Department of Biophysics, Panjab University, for his valuable advice and feedback during my research work. He is always being so supportive during my research work. I want to express my deep thanks for the insightful discussion, his patience and guidance during the writing process. Each meeting with him added invaluable aspects to the implementation and broadened my prospective. I have been extremely lucky supervisor who responded to my questions and queries so promptly.*

Besides my supervisors, I am thankful to other faculty members of Department of Biophysics, for their esteemed guidance, encouragement and motivation.

Special thanks are also given to “Prof. N. Khandelwal”, head of the Department of Radiodiagnosis and imaging, PGIMER, (Chandigarh). His encouragement and help made me feel confident to fulfill my desire and to overcome every difficulty I encountered. I am grateful to him who gave me permission to use the X-ray facility available there for radiation exposure. It is not sufficient to express my gratitude with only a few words.

During my research, “Dr. S. C. Bansal” from the Department of Radiodiagnosis and imaging, PGIMER, (Chandigarh) offered me a lot of friendly help; he transferred to me his research links and suggested to me the necessary readings for pursuing Ph.D. research. Our conversations enlightened my way of thinking, and so I’d like to give my sincere thanks to sir for his generous help. I owe my gratitude and thanks to “Prof. Baljinder Singh” Department of Nuclear Medicine (PGIMER), for his guidance, support and encouragement. Also, I pay my warm regards to “Mr. Ranjit Singh” Department of Radiotherapy (PGIMER), for his continuous help during my research.

I am especially thankful to “Dr. Neha Arora”, I can say she is my co-supervisor with high respect and deep sense of appreciation for her expert and active involvement in each experiments explaining clearly. I would like to express my deep thanks to her for excellent advises and detailed review during the preparation of this thesis. Her firm and kind-hearted personality has affected me to be steadfast and never bend to difficulty. I can honestly say that it was only her determination and constant encouragement that ultimately made it possible for me to see my research through to the end. I offer my sincerest gratitude to her because of her selfless efforts and support. The work done with her as a co-worker has taught me how a person can succeed in achieving what seems impossible to begin with...thank you so much mam for everything.

I deeply appreciated and wish to express my gratitude for the cooperation extended to me by technical and clerical staff Ms. Gurpreet Kaur, Ms. Preety, Mr. Sukhminder, Mr. Barinder Singh, Mr. Charan Singh, Mr. Damodar, Mr. Dinesh, Mr. Mehta, Mr. Rupinder Singh, Mr. Ram Chander Mr. Krishan Kumar, Department of Biophysics, Panjab University, regarding my official work. I gratefully acknowledge the help lent by Mr. Satpal and Mr. Lucky in taking care of experimental animals.

I am indebted to my many student colleagues for providing a stimulating and fun filled environment. I would like to thank all my former and present lab mates Dr. Neha Arora,

Dr. Sanjay Bharati, Dr. Prachi Gupta, Dr. Sarika, Nisha Bhatia, Jasmine Sati, Vandana Mohan, Anshul for their continued moral support. I would also like to thank Dr. Neha Sharma, Dr. Sukhwinder Kaur, Dr. Radhika, Dr. Mohanty, Dr. Roobee Garla, Dr. Shafeeqe, Dr. Manoj, Dr. Sunil, Yasmeen, Komal Rana, Monika Kapoor, Sheetal Sharma, Rishi Bhardwaj, Ankita, Rajbinder Kaur, Ramandeep Kaur, Pratibha, Preety Ghanghas, Preety Bhardwaj. Their friendship and assistance meant a lot to me and my research would not have been possible without their help. Their timely help and friendship shall always be remembered.

I would like to convey my heartfelt thanks to Nisha Bhatia for always being there as my helping hand. I want to express my deep gratitude to my best friend Vandana Mohan. She always supported me all along with promptness and care. I would like to thank for her love and encouragement. I would never forget all the chit chats and beautiful moments I shared with her. My best wishes are always with her. I would like to acknowledge Anshul for being a friend before a labmate. And, thank you for your support, love and encouragement when I have needed it the most. I convey special acknowledgement to Harsh Chaudhary, my little dearest friend, for her unconditional affection, support, concern and prayers. I wish all the very best for her life.

It's my fortune to gratefully acknowledge the support of some special individuals: Harsh Chaudhary, Kulwinder Kaur, Divya Arora, Pooja Sharma, Stanzin, Anika, Shallu, Sharadha Tiwari and all M.Sc. students during my tenure of research, for their extended love and support.

Finally, a very special word of thanks goes for my parents. There are simply not enough words to truly capture my emotions and gratitude to them; thank you seems so insufficient for all they have done. Nothing could have been accomplished without their unconditional love, support, and prayers. The sacrifices and struggles they have made for our family have not gone unnoticed. They gave me my name, they gave me my life, and everything else in between. They are the reason I did this; they are the reason I thrive to be better. Their pride for me is my main goal in life. Thank you, Thank you, Thank you.

And my most heartfelt thanks to my brother "Ashish Kumar" who always strengthened my morale by standing beside me in all situations. Thank you for guiding me how to take the challenges of life and turn them into fun, and for always being my best friend.

Most importantly, I can never forget to mention my close friend "Amardeep Singh" with whom I spent my cheerful moments of my life. To all my friends, thank you for your understanding and encouragement. Your friendship makes my life a wonderful experience. I cannot list all the names here, but you are always on my mind and hearts.

I gratefully acknowledge University Grant Commission- Rajiv Gandhi National Fellowship, New Delhi, for providing me financial support and allow me to perform my work comfortably.

Last but not the least I am also very thankful to the experimental animals for their sacrifices without which the study would not have been possible, may god keep their soul in peace.

Thank you, baba ji, for always being there for me.

Shashi Bala
