

LIST OF FIGURES

Figure No.	Particulars	Page No.
1	Effect of treatment on body weight	95
2	Mean values of Total Leucocyte Count ($\times 10^6$ cumm) in different groups	97
3	Mean values of Neutrophil (%) in different groups	99
4	Mean values of Lymphocyte (%) in different groups	101
5	Mean values of Eosinophil (%) in different groups	103
6	Mean values of Monocyte (%) in different groups	104
7	Mean values of Basophil (%) in different groups	107
8	Mean values of Haemoglobin (gm%) in different groups	108
9	Mean values of Packed Cell Volume (%) in different groups	110
10	Mean values of Total Erythrocyte Count ($\times 10^6 \mu\text{l}$) in different groups	112
11	Mean values of Total Platelet Count ($10^5/\mu\text{l}$) in different groups	114
12	Mean values of Blood Glucose (mg%) in different groups	116
13	Mean values of Blood Urea Nitrogen (mg/dl) in different groups	118
14	Mean values of Serum Creatinine (mg/dl) in different groups	120
15	Mean values of Serum Calcium (mg/dl) in different groups	122
16	Mean values of Serum Total Proteins (g/dl) in different groups	124
17	Mean values of Aspartate Amino Transferase (units/ml) in different groups	126
18	Mean values of Alanine Amino Transferase (units/ml) in different groups	127
19	Effect of various treatments on growth regression	131
