ACKNOWLEDGEMENT

First and foremost, I give thanks to God for all the care and help offered throughout the different phases of this research. I take this opportunity to express my profound gratitude to my esteemed research guide and supervisor Dr. P. B. Ullagaddi, Professor & Head in Civil and Water Management Department Engineering, S.G.G.S.I. E & T, Nanded, for his selfless succor to my endeavor. His shared enthusiasm taught me, patience and his words of advice acted as a moral booster. More words won't suffice to express my gratitude to his untiring commitment and role of guide played by him for the successful completion of this thesis. I express my deep sense of gratefulness to my co-guide Dr. D.G. Jugati, Principal, CES’s Chetana College of Business Administration, Bijapur, for providing necessary facilities and timely help who have been a constant source of inspiration during this study.

I express my sincere thanks to Dr. Dr. L. M. Waghmare, Director, S.G.G.S. I.E & T, Nanded, for his cooperation in this research work. My sincere thanks go to all the members of BLDEA’s Vachana Pitamaha Dr. P.G. Halakatti College of Engineering and Technology, Bijapur including our beloved Principal Dr. V.P. Huggi, Prof. V.P. Tankasali, Shri. S.A. Patil (Librarian). The author would like to express special thanks to Prof. Uttam Kinange, Prof. Vishvanath Siddanthi, and Shri. H.S. Makandar for their inspirational guidance, consistent patience, encouragement, friendship and constructive criticism.

I express my feeling and respect towards My Parents, without their blessing, help and motivation this thesis could not been completed. This list will not be complete without a word of appreciation and gratitude to my wife Gouri, son Varun and daughter Varsha for their love and relentless support that drove me to the finishing stage.

The author warmly thanks all those individuals, construction firms, institutions, and many others who have made available to this research their documents, time, knowledge and expertise. Without their assistance, this research would not have been possible.

Patil Bhimaraao Shrimant
