Tables and Charts

Table No. 201: The Organization of Design Parameter.

Table No. 202: The type of customer Requirement.

Table No. 203: Ranking of Design Parameter.

Table No. 203: Comparative study of different design techniques.

Table No. 301: Definition of small-scale Industry over the years.

Table No. 302: Value of Machinery supplied by NSID or Hire-purchase Basis to small-scale units in INDIA.

Table No. 303: A & D Expenditure in small industrial units in the Different states or Territories in India.

Table No. 304: R & D Expenditure by Industry Groups for small scale Industries in India.

Table No. 305: ISI Relative Performance of Traditional and Modern Industries of the VSI Sector in India.

Table No. 306: Share of Unorganized and organized sector in manufacturing employment for the period from 1974-75 to 1984-85.

Table No. 307: Distribution of SSIS (SIDO Units) in terms of Investment in Plant and Machinery.

Table No. 308: Distribution of SSIS in terms of Employment.

Table No. 309: Export from SSI sector.

Table No. 310: Export Performance.

Table No. 311: Export Performance and Share of SSI (9293)

Table No. 312: Two Digits Industry classification product codification as per National product codification (NPC)

Table No. 313: Industry wise Actual performance of SSI Units.

Table No. 314: State wise Actual performance of SSI Units.

Table No. 315: Growth of sickness in small-scale industries.
Table No. 316: Growing Industrial sickness during 1980-90.
Table No. 317: Industry-wise Distribution of sick Industrial Units.
Table No. 318: State-wise Distribution of small-scale units / sick small scale Units.
Table No. 319: Outstanding /state wise Distribution of sick Units.
Table No. 320: Number of closed Units with the year of start of production.
Table No. 321: The Number of closed Units with Reasons for their closure.
Table No. 322: Constraints in – Higher Capacity Utilization.
Table No. 401: Design Parameter for pilot survey.
Table No. 402: Expert committee.
Table No. 402a: Expert committee Members.
Table No. 403: Considerations and Actions for Design of Questionnaire.
Table No. 404: Rating scale for preferences.
Table No. 405: Data Analysis Method.
Table No. 406: The Design Parameters for expericence survey
Table No. 407: Weight Estimation of Design Parameters by Pair's Comparison Method
Table No. 501: Weight Estimation of Design Parameters by Pair's Comparison Method
Table No. 502: Ranking of Design Parameters by a Designer
Table No. 503: Average Weight Estimation of Designer's Preferences
Table No. 504: The ranking of the design parameters by Pair's Comparison.
Table No. 505: Designer's Preferences
Table No. 506: The Ranking of the Design Parameters by Designers.
Table No. 507: Customer's Preferences
Table No. 508: The Ranking of the Design Parameters by Customers.
Table No. 509: Engineers Preferences
Table No. 510: The Ranking of the Design Parameters by Engineers.
Table No. 511: Dealer's Preferences
Table No. 512: The Ranking of the Design Parameters by dealers.

Table No. 513: Combine Weightage of Stakeholders

Table No. 514: Stakeholders’ Preferences Difference

Table No. 515: ABC Analysis

Table No. 516: t values after paired sample t-test

Table No. 517: Perceptonal Gap between Various Stakeholders.

Table No. 518: List of design parameters where no difference of opinion exists amongst different stakeholders.

Table No. 519: Table for reporting perception gap.

Table No. 520: Table for descriptive statistics analysis of total factors score for design parameters.

Table No. 521: Rotated Component Matrix

Table No. 522: The results of factor analysis

Table No. 523: Final Statistics of Factor Analysis

Table No. 601: Table for reporting perception gap.

Table No. 602: Top ten Parameters of all stakeholders

Table No. 603: Recommendations based on terms

Table No. A301: Case studied Industries.

Table No. A302: Brief information of case studied industries

Table No. A303: Design Parameters for Pilot Survey.

Table No. A304: Design Parameters for Experience Survey.

Table No. A305: SSI Response for Design Parameter.

Table No. A306: Weightage for Design parameter by SSI Entrepreneur.

Table No. A307: SSI Response for Design Parameter.

Table No. A306: Weightage for Design Parameters by SSI Entrepreneur

Table No. A307: Ranking of Design Parameter Based on SSI Preferences
Chart No. 301: Industrial Units Receiving Technical Assistance
Chart No. 302: Production Performance of SSI Sector
Chart No. 303: Distribution of Fixed Investment in SSI Sector
Chart No. 304: Distribution of production Value of SSI Sector
Chart No. 306: Distribution of SSI Unit
Chart No. 307: Durability of competitive Advantage
Chart No. 501: Weightage of Design Parameters by Designers in Graphical form
Chart No. 502: Weight Estimation by Designers.
Chart No. 503: Weight Estimation by Customers.
Chart No. 504: Weight Estimation by Engineers.
Chart No. 505: Weight Estimation by Dealers.
Chart No. 506: Weight Estimation by All Stakeholders.
Chart No. A301: Weightage of Design Parameters as per the SSI Entrepreneur.
