LIST OF EQUATIONS

EQUATION 1-1 REPRESENTATION OF NUMBERS IN IEEE754-2008 DECIMAL64 INTEGER FORMAT .................. 10
EQUATION 1-2 RANGE OF EXPONENT IN IEEE754-2008 DECIMAL64 INTEGER FORMAT .......................... 10
EQUATION 1-3 REPRESENTATION OF NUMBERS IN IEEE754-2008 DECIMAL64 SCIENTIFIC FORMAT ......... 10
EQUATION 1-4 FIRST RELATIONSHIP BETWEEN DECIMAL64 INTEGER AND SCIENTIFIC FORMATS ........ 11
EQUATION 1-5 SECOND RELATIONSHIP BETWEEN DECIMAL64 INTEGER AND SCIENTIFIC FORMATS ...... 11
EQUATION 1-6 U-PATH EXPRESSION FOR PARTIAL PRODUCT ACCUMULATION ...................................... 13
EQUATION 1-7 V-PATH EXPRESSION FOR PARTIAL PRODUCT ACCUMULATION ...................................... 13
EQUATION 1-8 MINIMAX POLYNOMIAL .................................................................................................. 16
EQUATION 1-9 EXPRESSION 1 FOR APPROXIMATION OF 1/X IN THE INTERVAL [x0, x1] ........................... 16
EQUATION 1-10 EXPRESSION 2 FOR APPROXIMATION OF 1/X IN THE INTERVAL [x0, x1] ......................... 16
EQUATION 1-11 NEWTON RAPHSON ITERATIVE EXPRESSION ............................................................... 16
EQUATION 1-12 NEW DESIRED BASE EXPRESSION FOR ANURUPYENA UPSUTRA ............................... 21
EQUATION 1-13 POLYNOMIAL EXPRESSION OF A NUMBER ................................................................ 23
EQUATION 1-14 PRODUCT EXPRESSION FOR POLYNOMIAL MULTIPLICATION ...................................... 23
EQUATION 2-1 16 DIGIT DECIMAL NUMBER REPRESENTATION ............................................................. 28
EQUATION 2-2 EXPRESSION FOR ADDITION OF TWO SINGLE DIGIT DECIMAL NUMBERS ....................... 28
EQUATION 2-3 RESULT RANGE FOR TWO OPERAND SINGLE DIGIT ADDITION WITH INCOMING CARRY .... 28
EQUATION 2-4 EXPRESSION FOR INTERMEDIATE RESULT IS[4:1] ......................................................... 29
EQUATION 2-5 GENERATION OF DECISION SIGNAL DS ........................................................................ 30
EQUATION 2-6 BCD CORRECTION CASES ............................................................................................ 31
EQUATION 2-7 EXPRESSION FOR CORRECTION SIGNAL (CS) USING PSEUDO CODE 2-1 ...................... 31
EQUATION 2-8 CRITICAL PATH DELAY EQUATION ................................................................................ 37
EQUATION 2-9 PATH DELAY EXPRESSION FOR CONVENTIONAL SINGLE BCD ADDER ....................... 37
EQUATION 2-10 LOGIC DELAY EXPRESSION USING RCA FOR N – DIGIT CSDBA ............................... 37
EQUATION 2-11 LOGIC DELAY EXPRESSION USING CLA FOR N – DIGIT CSDBA ............................. 37
EQUATION 2-12 COMPLETE DELAY EXPRESSION FOR SINGLE DIGIT FAST BCD ADDER ................. 38
EQUATION 2-13 DELAY EXPRESSION FOR SDFBA (4 BIT RCA IN LEVEL 1, LEVEL 4 IN FIGURE 2-1) .......... 38
EQUATION 2-14 DELAY EXPRESSION FOR SDFBA (4 BIT CLA IN LEVEL 1, LEVEL 4 IN FIGURE 2-1) ....... 38
EQUATION 2-15 EXPRESSION FOR ADDING SINGLE DIGIT OPERANDS USING SDFBA (RCA VERSION) .... 38
EQUATION 2-16 EXPRESSION FOR ADDING SINGLE DIGIT OPERANDS USING SDFBA (CLA VERSION) .... 39
EQUATION 2-17 EXPRESSION FOR ADDING 16 DIGIT OPERANDS USING WWFBA (RCA VERSION) ......... 39
EQUATION 2-18 EXPRESSION FOR ADDING 16 DIGIT OPERANDS USING WWFBA (CLA VERSION) ......... 39
EQUATION 2-19 COMPLETE DELAY EXPRESSION FOR 11:2 COMPRESSOR .......................................... 39
EQUATION 2-20 PATH DELAY EXPRESSION FOR COMPLETE 11 × 16 DIGIT BCD ADDER .................... 40
EQUATION 2-21 EXPRESSION FOR ADDING 17 DIGIT OPERANDS USING WWFBA (RCA VERSION) ......... 40
EQUATION 2-22 EXPRESSION FOR ADDING 17 DIGIT OPERANDS USING WWFBA (CLA FO4 VERSION) .... 40
LIST OF EQUATION SETS

EQUATION SET 3-1 ONE HOT CODE CONTROL SIGNALS ............................................................................ 73
EQUATION SET 3-2 BIT EXPRESSIONS FOR MULTIPLES OF 2 ........................................................................ 73
EQUATION SET 3-3 BIT EXPRESSIONS FOR MULTIPLES OF 3 ........................................................................ 74
EQUATION SET 3-4 BIT EXPRESSIONS FOR MULTIPLES OF 4 ........................................................................ 74
EQUATION SET 3-5 BIT EXPRESSIONS FOR MULTIPLES OF 5 ........................................................................ 74
EQUATION SET 3-6 COMPLETE SET OF EQUATIONS FOR THE VALUES OF $Z_i (i \in [0, 30])$ ...................... 77
EQUATION SET 3-7 COMPLETE SET OF EQUATIONS FOR THE VALUES OF $P_k (k \in [0, 31])$ ...................... 81
