

Index

Particulars	Page No.
I. General Introduction.	1 – 39
II. Propagation of Cylindrical Imploding Shock Waves in Magnetogasdynamics.	40 – 61
III. Propagation of Diverging Spherical Shock Wave in a Self-Gravitating Gas.	62 – 75
IV. Effect of Overtaking Disturbances on the Motion of Diverging Magneto-hydrodynamics Shock Wave in an Ideal Gas.	76 – 92
V. Study of the Plane Magnetohydrodynamics Shock Waves Propagation in a Self Gravitating Gas.	93 – 120
VI. Analysis of Conservation Laws and the Behavior of Fast and Slow Magneto-hydrodynamics Shock Waves.	121 – 145
