

## LIST OF TABLES

TABLE NO.	TITLE	PAGE NO.
4.1	RNA-Seq reads mapping percentage to reference genome (Hg38)	52
4.2	ADA genes up-regulated in frontal lobe of AD brain	52
4.3	ADA genes up-regulated in temporal lobe of AD brain	52
4.4	ADA genes up-regulated in whole brain	52
4.5	ADA genes down regulated in diseased frontal lobe	53
4.6	ADA genes down regulated in diseased temporal lobe	53-54
4.7	ADA genes down regulated in diseased whole brain	54-55
4.8	Obesity genes down-regulated in diseased frontal lobe	61-62
4.9	Obesity genes down-regulated in diseased temporal lobe	62-63
4.10	Obesity genes down-regulated in diseased whole brain	63-64
4.11	Obesity genes up-regulated in diseased frontal lobe	65
4.12	Obesity genes up-regulated in diseased temporal lobe	65
4.13	Obesity genes up-regulated in diseased whole brain	65
4.14	Obesity genes down-regulated in either of two AD samples	66
4.15	Obesity genes down-regulated in all the AD samples	66
4.16	Obesity genes up-regulated in two AD samples	66
4.17	X chromosome genes down-regulated in diseased frontal lobe	72-73
4.18	X chromosome genes down-regulated in diseased temporal lobe	73-74
4.19	X chromosome genes down-regulated in diseased whole brain	74-75
4.20	X chromosome genes up-regulated in diseased frontal lobe	75
4.21	X chromosome genes up-regulated in diseased temporal lobe	75
4.22	X chromosome genes up-regulated in diseased whole brain	75
4.23	X chromosome genes down-regulated in two AD samples	76
4.24	Y chromosome genes down-regulated in frontal lobe AD samples	77
4.25	Y chromosome genes down-regulated in whole brain AD samples	77
4.26	Mitochondrial genes up-regulated in frontal lobe AD samples	77
4.27	Mitochondrial genes up-regulated in temporal lobe AD samples	77
4.28	Mitochondrial genes up-regulated in whole brain AD samples	78

<b>4.29</b> Sex biased down-regulated in frontal lobe AD samples	78
<b>4.30</b> Sex biased down-regulated in temporal lobe AD samples	78
<b>4.31</b> Sex biased down-regulated in whole brain AD samples	78
<b>4.32</b> Sex biased up-regulated in frontal lobe AD samples	79
<b>4.33</b> Sex biased up-regulated in whole brain AD samples	79
<b>4.34</b> Sex-biased genes down-regulated in two AD samples	79
<b>4.35</b> Sex-associated DGE genes encoding transcription factors along with their target genes	82
<b>8.1</b> List of Plagiarism	
<b>A 1.1</b> List of ADA genes	126-141
<b>A 1.2</b> List of Obesity genes	142-149
<b>A 1.3</b> List of X chromosome genes	150-167
<b>A 1.4</b> Genes encoded by Y chromosome	168-171
<b>A 1.5</b> Mitochondrially encoded genes	172
<b>A 1.6</b> Sex-biased genes	173-174
<b>A 2.1</b> Obesity genes common in ADA	175
<b>A 2.2</b> Sequence based clustering of ADA gene	176-184
<b>A 2.3</b> Unmapped ADA genes in functional clustering	185
<b>A 2.4</b> Biological processes in which all ADA genes clustered	185
<b>A 2.5</b> Pathways in which all ADA genes clustered	186-188
<b>A 2.6</b> Protein classes in which all ADA genes clustered	189
<b>A 2.7</b> Correlation of functional enrichment and expression of DGE ADA genes	190-197
<b>A 3.1</b> Pathways in which obesity genes common with ADA classified	198
