

List of Tables

Table 1.1	DPMO based on different sigma level	4
Table 1.2	Six Sigma Literature review	10
Table 1.3	Marketing Literature review	11
Table 2.1	Types of projects, their focus and tools required for each	22
Table 2.2	Confidence-Trust ranking matrix	30
Table 3.1	Sigma Estimators and their efficiencies	37
Table 3.2	DPMO for targeted and shifted distribution	40
Table 3.3	One way ANOVA for equal number of observations	44
Table 4.1.2	Difference between function based and process based approach	61
Table 4.2.1	Different dimensions of traditional and contemporary marketing scenario	69
Table 4.3.1	Difference between manufacturing and service environment	78
Table 6.1	Differentiating factors of Lean and Six Sigma	109
Table 7.1	X and Y variables	124
Table 7.2	XY matrix	125
Table 7.3	KMO and Bartlett's test for factor analysis	128
Table 7.4	factor extraction through eigen values	128
Table 7.5	Variable communalities	129
Table 7.6	Factor loadings	131
Table 7.7	Identification of element to improve through percentage distribution	133
Table 7.8	List of countries and Indian states from where DVC website was accessed	139
Table 7.9	List of Indian cities from where DVC website was accessed	139
Table 7.10	DVC website pages with high bounce rate	143
Table 7.11	DVC website pages with high bounce rate	144
Table 7.12	Key words identified through key word planner tool	145
Table 8.4	Benefit-cost matrix for optimum promotion mix	163
