LIST OF PLATES

Plate 1 Morphological difference between age-sex classes in Nicobar macaques
Plate 2 Panoramic view of the Great Nicobar Island
Plate 3 Different activities of Nicobar long-tailed macaque
Plate 4 Social activities of Nicobar long-tailed macaque in Great Nicobar Island
Plate 5 A few wild fruits in the diet of Nicobar long-tailed macaque
Plate 6 Other plant parts: leaves, flowers, seeds and stem in the diet of Nicobar macaque
Plate 7 Unusual diet and feeding by Nicobar long-tailed macaque
Plate 8 Interview with farmer from Great Nicobar Island
Plate 9 Crop cultivation practices in Great Nicobar Island
Plate 10 Nicobar macaques raiding houses, coconut and banana farms
Plate 11 Preventive measures used by the farmers of Great Nicobar Island
Plate 12 Some disabled, injured and infected semi-provisioned macaques

APPENDIX-I
Macaque species distribution and IUCN status in India............................. 28

APPENDIX-II
Subspecies of long-tailed macaque’s geographical distribution
and IUCN status.................................................................................................. 29

APPENDIX-III
The review of *M. fascicularis* group size, age-sex ratio variation
in different habitat types of various locations................................................... 30

APPENDIX-IV
Review of long-tailed macaque’s (*M. fascicularis*) density variation
according to habitat types studied in other countries....................................... 31

APPENDIX-V
The review of daily activity of *M. fascicularis* and its percentage studies
in other countries............................................................................................... 32

APPENDIX-VI
The review of dietary composition and its percentage of *M. fascicularis*
in different location and origin of food types in other studies....................... 33
