LIST OF FIGURES

Chapter 7

RESULTS

7.3 Frequent and common analgesics used

Fig. 7.3.1 Analgesics used, past month

Fig. 7.3.2 Other analgesics used, past month

7.6 Quality of life of analgesic users

Fig. 7.6.1 Quality of life (health status) among urban young adults (n=700)

Fig. 7.6.2 Quality of life (health status) among urban young adults (n=700)

Fig. 7.7.1 Socio-Demographic Differences Between Analgesic Misuse And No Misuse (Fig. 7.7.1, No. I-XIV)
LIST OF TABLES

Chapter 7

RESULTS

7.1 Socio-demographic profile of analgesic users

Table 7.1.1 Socio-demographic characteristics of participants

Table 7.1.2 Elaborated employment status of analgesic users

7.2 Pattern of alcohol use and smoking among analgesic users

Table 7.2.1 Frequency distribution of past 30 days and lifetime use of alcohol and smoking

Table 7.2.2 Pattern Of Use Of Alcohol And Smoking with Gender

Table 7.2.3 Pattern Of Use Of Alcohol And Smoking with Ethnicity

Table 7.2.4 Alcohol Use And Smoking Between Misusers And Non-Misusers Of Analgesics

Table 7.2.5 Alcohol Use And Smoking Between Subjects Having Pain And No Pain

Table 7.2.6 Age of respondents and pattern of alcohol use along with smoking

Table 7.2.7 Smoking In The Past Month Among Type Of Smokers

7.3 Frequent and common analgesics used

Table 7.3.1 Lifetime analgesic use and use of more than one analgesic in the past 30 days

Table 7.3.2 Analgesics Used in the past 30 days

7.4 Knowledge, attitude and practice of analgesic misused

Table 7.4.1 Knowledge of analgesic misused among urban young adults (n=91)

Table 7.4.2 Attitude of analgesic misused among urban young adults (n=91)
List of Tables (contd.)

Table 7.4.3 Practice of analgesic misused among urban young adults (n=91) 58
Table 7.4.4 Knowledge, Attitude And Practice Of Analgesic Misused With Age Among Urban Young Adults (N=91) 59
Table 7.4.5 Knowledge, Attitude And Practice Of Analgesic Misused With Ethnicity Among Urban Young Adults (N=91) 60
7.5 Pain status of analgesic misusers (n=91) 63
Table 7.5.1 Area experiencing pain 63
Table 7.5.2 Pain scores in past 24 hours 64
Table 7.5.3 Sufferings by pain and treatment measures taken in the past 24 hours 65
7.6 Quality of life of analgesic users 68
Table 7.6.1 Quality of life (problems faced due to physical & emotional problems) 70
Table 7.6.2 Comparison of quality of life (QoL) among participants misusing analgesics and not misusing analgesics in the past 4 weeks 71
Table 7.6.3 Comparison of quality of life (QoL) among participants misusing analgesics and not misusing analgesics in the past 4 weeks 75
Table 7.6.4 Prediction Model Of Quality Of Life In Physical Domain 79
Table 7.6.5 Prediction Model Of Quality Of Life In Emotional Domain 80
7.7 Socio-demographic characteristics between analgesic misusers and non-misusers 82
Table 7.7.1 Prediction model for socio-demographic factors causing analgesic misuse 88
Table 7.7.2 Prevalence of analgesic misuse 89
