ACKNOWLEDGEMENTS

First and foremost, I would like to acknowledge with gratitude, the good providence of Almighty God the father of all, we thank for the strength that keeps us standing and for the hope that keeps us believing that this affiliation would be possible and most interesting.

I would like to express my deep and sincere gratitude to my supervisor, Dr. V. N. Srivastava, Reader, Department of Chemistry, K.S. Saket P.G. College, Ayodhya (Dr. RML Avadh University) Faizabad. His helpful guidance, constant encouragement and everlasting moral support and kindness made way for the successful completion of this endeavor.

I express my profound gratitude and indebtedness to my co-supervisor Dr. Yogeshwer Shukla, Deputy Director, Indian Institute of Toxicology Research, who paved the way for me on a still ongoing and exciting journey towards the hidden word of "cancer chemoprevention by dietary constituents". He taught me how to channalize creative imagination into sound experimental work, sharing his vast scientific skills and guiding me with his quality minded, approach for relevant questions and answers. I am indebted to him more than he knows.

I am also thankful to Dr. K.C. Gupta, Present Director Indian Institute of Toxicology Research, for providing all necessary facilities during the final stage of my work.

I also express humble gratitude to Ex-Director Dr. Ashwani Kumar, Indian Institute of Toxicology Research, Lucknow for their support and giving me opportunity to accomplish my work successfully.

I also wish to put on my sincere thanks to both Dr. Jaswant Singh, Reader, Department of Environmental Science, Dr. RML Avadh University, Faizabad and Dr. P. N. Pande, Reader, Department of Zoology, K.S. Saket P.G. College, Ayodhya (Dr. RML Avadh University) Faizabad, for their immense support. They always kept an eye on the progress of my work and were always available when I needed their advice. Their constant support and guidance made this endeavor an easy completion.

I was extraordinarily fortunate in having Dr. Imtiaz A. Siddiqui as my family friend and my senior in post graduate and doctoral levels. I could never have embarked and started all of this without his prior guidance and thus opened up unknown areas to me. Thank you.

It seems the right moment to express my thanks to my senior lab member Dr. Madhulika Singh for her constructive comments on this thesis. I gratefully thank my seniors Dr. Neetu Kalra, Mr. Sahdeo Prasad and Dr. Vinay Yadav whose dedication and determination have strongly influenced my way. They were the one who made me learn most of the techniques going on in our lab. I greatly acknowledge the whole hearted cooperation and support of my other senior colleagues Dr. Chhavi Saxena, Veera Singh and Chitra Tripathi.
I also want to thank Mr. H. S. N. Naqvi for doing all the needful official work required for the smooth functioning of my endeavor. I am also thankful to Dr. G.S.D. Gupta for his much need help and support. Without their colossal support and unvarying help this study would have not been such a straightforward ride for me.

I am glad to pay my thanks and regards to my laboratory colleagues Preeti Roy, Pranav Chaturvedi, Alok Yadav, Smita Srivastava, Shilpa Tyagi, Amit Kr. Srivastava, Harjeet Mann, Esha Madan, Kulpreet Bhui, Jasmine George, Richa Singh, Zafar Mahmood, Shipra Gupta and Babita Singh for their help and encouragement. I will always remember the pleasant and humorous moments spend with all of them. Thanks are also due to Mr. Babu Ram for his pains taking efforts and helping me in innumerable ways.

I also acknowledge to Department of Biotechnology, New Delhi for the award of Junior Research Fellowship during the years of my study.

It would be unfair from my part if I will forget recognizing all the animals who sacrificed their lives for the sake of my thesis.

Where would I be without my family? My parents deserve special mention for their inseparable support and prayers. My Father, Mr. J. P. Nigam, in the first place is the person who put the fundament my learning character, showing me the joy of intellectual pursuit ever since I was a child. My Mother is the one who taught me that even the largest task can be accomplished if it is done one step at a time sincerely. They brought me up in such a way that laid foundation for achieving all what I have that makes me proud of myself. Words fail me to express my appreciation to my husband, Mr. Ruchir Pradhan whose dedication, love and persistent confidence in me, has taken the load off my shoulder. I will always be indebted to my sister, brother-in-laws and mother-in-law for their love, inspiration and encouragement which enabled me to accomplish whatever I have. Without their constant help and support I would have not been able to achieve my goals. My love is always overwhelming for my nephew, Akshat, for his childish pranks made me feel unperturbed after a tough day at work.

Finally, I would like to thank everybody who was important to the successful realization of thesis, as well as expressing my apology that I could not mention personally one by one.

Nidhi Nigam
