CONTENTS

Introduction 1 - 8
Review of Literature 9 - 40
Chapter I: 41 - 64
Antimutagenic effects of [6]-gingerol using direct and indirect acting mutagens induced DNA alkylation damage
   Introduction and Rationale
   Materials and Methods
   Results
   Discussion

Chapter II: 65 - 88
[6]-gingerol induces reactive oxygen species regulated mitochondrial cell death pathway in human epidermoid carcinoma cells
   Introduction and Rationale
   Materials and Methods
   Results
   Discussion

Chapter III: 89 - 111
Induction of apoptosis by [6]-gingerol associated with the modulation of p53 and involvement of mitochondrial signaling pathway in B[a]P-induced mouse skin tumorigenesis
   Introduction and Rationale
   Materials and Methods
   Results
   Discussion

Chapter IV: 112 - 119
Quantification of the [6]-gingerol content in ginger root rhizomes
   Introduction and Rationale
   Materials and Methods
   Results
   Discussion

Bibliography 120 - 163
Summary i - vii
List of Publications i - iii
