

**Present thesis Is dedicated
to my
parents and welwishers**

ACKNOWLEDGEMENT

*I take this opportunity to convey my deep sense of gratitude towards my thesis supervisor, **Dr. Sanjeeda Iqbal** for her guidance, encouragement and motioned attention throughout my research work.*

*Our sincere thanks to **Prof. R.S. Maheshwari** and **Dr. Angoorbala Bafna** Dept. of Biochemistry for providing necessary laboratory facilities and encouragement.*

*I also express my thanks to **Dr. Dilip Wghela, Mr. Atul Kotiya & other staff members** of MPSPCB; Regional Office of M.P. Pollution Control Board, Indore for their help to conduct parameters related to ambient air quality monitoring work.*

*I am extremely indebted to **Dr. K. N. Chaturvedi**, Principal, Government Holkar Science College, Indore for providing necessary infrastructure and resource to accomplish my research work.*

*I am very thankful to **Dr. Arun kher** head department of botany and **Dr. Kishor Panwar**, head dept. of Seed Technology Government Holkar Science College, Indore for providing the necessary laboratory facilities and acadmic support.*

*I am owe a great deal of appreciation and gratitude to **Dr. Rajmal Singh Rao & Dr. Veena Satya**, Head of the Department of botany S.B.N. P.G. College Barwani, for kind, support, help and guidance.*

*I take this opportunity to thank all my friends especially, **Prof. D.S. Chouhan, Prof. Ritesh Bhawsar, Niraj Sen, Dilip Kumar Aske, Smruti Sohani, Taiyaba Ansari**, for their understanding and encouragement in both research and movement of life. Their friendship makes my life a wonderful experience.*

*Deep heartedly, I thank my parents, brother & sisters for their blessings and motivation at each and every step. This thesis is dedicated to my nearest and dearest. My warmest and most sincere thanks go to my father **Shri kailash Chouhan** for his patience understanding, support and love during these years.*

I again make my sincere thanks to friends, colleagues and family for constant motivation and support that helped me accomplish the challenging research work. Above all, I thank Almighty whose blessing never ceases.

CONTENTS

| Chapter No. | Subject | Page No. |
|--------------------|--|------------------|
| I | INTRODUCTION | 1 - 11 |
| II | REVIEW OF LITERATURE | 12 - 59 |
| III | MATERIALS AND METHODS | 60 - 69 |
| IV | AMBIENT AIR QUALITY ASSESSMENT | 70 – 86 |
| V | ASSESSMENT OF CROP RESPONSE | 87 -157 |
| VI | BIOMONITORING OF AIR POLLUTION | 158 - 251 |
| VII | CONTROL MEASURES OF AIR POLLUTION | 252 -253 |
| VIII | CONCLUSION | 254 - 261 |
| | RECOMMENDATION | 262 - 263 |
| Appendix-1 | LIST OF PUBLICATIONS | |

LIST OF TABLES AND GRAPHS

| S. No. | Title | Page No. |
|--------|--|----------|
| 1. | Table 4.1: Showing previous years' air quality status in pithampur industrial area | 74 |
| 2. | Table 4.2: Showing SPM, NO _x , SO ₂ , O ₃ (µg/m ³) at different study areas during two decades | |
| 3. | Table & Graph 4.3: Showing RSPM (µg/m ³) taken as twenty four hours mean pollutant concentration (µg/m ³) during, 2011-2012, 2013-2014 sampling seasons at different sites of Pithampur industrial area sector-1, 2 and 3. | 75 |
| 4. | Table & Graph 4.4: Showing SO ₂ (µg/m ³) twenty four hour mean pollutant concentration (µg/m ³) during 2011-2012, 2013-2014 sampling seasons at different sites of Pithampur industrial area sector-1, 2 and 3. | 76 |
| 5. | Table & Graph 4.5: Showing NO ₂ (µg/m ³) twenty four hour mean pollutant concentration (µg/m ³) during 2011-2012, 2013-2014 sampling seasons at different sites of Pithampur industrial area sector-1, 2 and 3. | 77 |
| 6. | Table & Graph 5.1. (a): Showing variations in the studied parameters of soybean crop (<i>JS-335</i>) at Sector-1 vs. control (Year-2011). | 88 |
| 7. | Table & Graph 5.2. (b): Showing variations in the studied parameters of soybean crop (<i>JS-335</i>) at sector-2 vs. control (Year-2011). | 91 |
| 8. | Table & Graph 5.3. (c): Showing variations in the studied parameters of soybean crop (<i>JS-335</i>) at sector-3 vs. control (Year-2011). | 94 |
| 9. | Table & Graph 5.4. (d): Showing variations in the studied parameters of maize crop (<i>American</i>) at sector-1 vs. control (Year-2011). | 97 |
| 10. | Table & Graph 5.5. (e) : Showing variations in the studied parameters of maize crop (<i>American</i>) at sector-2 vs. control (Year-2011). | 100 |
| 11. | Table & Graph 5.6. (f): Showing variations in the studied parameters of maize crop (<i>American</i>) at sector-3 vs. control (Year-2011). | 103 |
| 12. | Table & Graph 5.7. (g) : Showing variations in the studied parameters of gram crop (<i>Ujjain-21</i>) at sector-1 vs. control (Year-2012). | 106 |
| 13. | Table & Graph 4.8. (h) : Showing variations in the studied parameters of gram crop (<i>Ujjain-21</i>) at sector-2 vs. control (Year-2012). | 109 |
| 14. | Table & graph 5.9. (I) : Showing variations in the studied parameters of gram crop (<i>Ujjain-21</i>) at sector-3 vs. control (Year-2012). | 112 |
| 15. | Table & Graph 5.10. (j): Showing variations in the studied parameters of wheat (<i>Lok-1</i>) at sector-1 vs. control (Year-2012). | 115 |

| | | |
|-----|---|-----|
| 16. | Table & Graph 5.11. (k): Showing variations in the studied parameters of wheat (<i>Lok-I</i>) at sector-2 vs. control (Year-2012). | 118 |
| 17. | Table & Graph 5.12. (l) : Showing variations in the studied parameters of wheat (<i>Lok-I</i>) at sector-3 vs. control (Year-2012). | 121 |
| 18. | Table & Graph 5.12. (m) : Showing monthly variations in APTI of soybean crop. | 124 |
| 19. | Table & Graph 5.13. (n) : Showing monthly variations in APTI of maize crop. | 125 |
| 20. | Table & Graph 5.14. (o) : Showing monthly variations in APTI of gram crop. | 126 |
| 21. | Table & Graph 5.15. (p) : Showing monthly variations in APTI in wheat crop. | 127 |
| 22. | Table 5.16. (q): Showing correlation matrix between ascorbic acid, pH, relative water content and total chlorophyll, APTI of soybean crop species of Pithampur industrial area sector-1, 2 & 3. | 128 |
| 23. | Table 5.17. (r): Showing correlation matrix between ascorbic acid, pH, relative water content and total chlorophyll, APTI of maize crops species of Pithampur industrial area sector-1, 2 & 3. | 129 |
| 24. | Table 5.18. (s): Showing correlation matrix between ascorbic acid, pH, relative water content and total chlorophyll, APTI of wheat crops species of Pithampur industrial area sector-1, 2 & 3. | |
| 25. | Table 5.19. (t): Showing correlation matrix of APTI versus ascorbic acid, pH, relative water content and total chlorophyll, APTI of gram crop species of Pithampur industrial area sector-1, 2 & 3. | |
| 26. | Table & Graph 5.2.1: Showing protein content (mg/g/dw) in soybean seeds collected from crop growing in sector-1, 2 , 3 & control site. | 141 |
| 27. | Table & Graph 5.2.2: Showing protein content (mg/g/dw) in maize seeds collected from crop growing in sector-1, 2, 3 & control site. | 141 |
| 28. | Table & Graph 5.2.3: Showing protein content(mg/g/dw) in gram seeds collected from crop growing in sector-1, 2, 3 & control site. | 143 |
| 29. | Table & Graph 5.2.4: Showing protein content (mg/g/dw) in wheat seeds collected from crop growing in sector-1, 2 , 3 & control site. | 144 |
| 30. | Table & Graph 5.2.5: Showing carbohydrates content(mg/g/dw) in soybean seeds collected from crop growing in sector-1, 2 , 3 & control site. | 145 |
| 31. | Table & Graph 5.2.6: Showing carbohydrates content (mg/g/dw) in maize seeds collected from crop growing in sector-1, 2 , 3 & control site. | 146 |
| 32. | Table & Graph 5.2.7: Showing carbohydrates (mg/g/dw) in gram seeds collected from crop growing in sector-1, 2 , 3 & control site. | 147 |

| | | |
|-----|--|-----|
| 33. | Table & Graph 5.2.8: Showing carbohydrates content (mg/g/dw) in wheat seeds collected from crop growing in sector-1, 2 , 3 & control site. | 148 |
| 34. | Table & Graph 5.2.9: Showing % reduction in protein content in studied crop growing in pithampur industrial area sector-1, 2 & 3. | 149 |
| 35. | Table & Graph 5.2.10 : Showing % reduction in carbohydrate content in studied crop growing in pithampur industrial area sector-1, 2 & 3. | 150 |
| 36. | Table 6.1: Showing lead (Pb) accumulation of leaves in studied plants growing at control vs. Pithampur Industrial area. | 159 |
| 37. | Table 6.2: Showing cadmium accumulation of leaves in studied plants growing at control vs. Pithampur Industrial area-1, 2 & 3. | 161 |
| 38. | Table 6.3: Showing copper accumulation of leaves of studied plants growing in control vs. Pithampur Industrial area-1, 2 & 3. | 163 |
| 39. | Table 6.4: Showing nickel accumulation of leaves in studied plants growing at control vs. Pithampur Industrial area-1, 2 & 3. | 165 |
| 40. | Table 6.5: Showing lead accumulation of leaves in studied plants growing at control vs. Pithampur Industrial area- 1, 2. &3. | 167 |
| 41. | Table 6.6: Showing cadmium accumulation of leaves in studied plants growing at control vs. Pithampur Industrial area- 1, 2 & 3. | 169 |
| 42. | Table 6.7: Showing copper accumulation of leaves in studied plants growing in control vs. Pithampur Industrial area -1, 2 & 3. | 171 |
| 43. | Table 6.8: Showing nickel accumulation of leaves of studied plants growing in control vs. Pithampur Industrial area- 1, 2 & 3. | 173 |
| 44. | Table 7.1.1: Showing leaves extract pH of studied plant leaves (Control vs. Pithampur Industrial Area Sector -1, 2 & 3). | 182 |
| 45. | Table 7.1.2: Showing relative water content (mg/g/fw) of studied plant leaves (Control vs. Pithampur Industrial Area sector – 1, 2 & 3). | 185 |
| 46. | Table 7.1.3: Showing total photosynthetic pigment (mg/g/fw) of studied plant leaves (Control vs. Pithampur Industrial Area Sector -1, 2 & 3). | 188 |
| 47. | Table 7.1.4: Showing ascorbic acid content (mg/g/fw) of studied plant leaves (Control vs. Pithampur Industrial Area sector -1, 2 & 3). | 191 |
| 48. | Table 7.1.5: Air pollution tolerance index (APTI) of studied plant leaves (Control vs. Pithampur Industrial Area sector -1, 2 & 3) | 194 |
| 49. | Table 7.1.6: Showing leaves extracts pH of studied plants species (Control vs. Pithampur Industrial Area Sector -1, 2 & 3). | 197 |
| 50. | Table 7.1.7: Showing relative water content (mg /g/ fw) of studied plant leaves (Control vs. Pithampur Industrial Area sector – 1, 2 & 3). | 200 |

| | | |
