	ACKNOWLEDGEMENT	
	ABSTRACT	
	LIST OF TABLES	
	LIST OF FIGURES	
	LIST OF ACRONYMS	
	CHAPTER 1: INTRODUCTION	1 – 39
	1.1. Women and Reproductive Health	4-6
	1.2. Factors Affecting Reproductive Health and Reproductive Rights of Women	6-7
	1.3. Concept of Tribe	7-16
	1.3.1 Distribution of Tribal Population in India and Rajasthan	9
	1.3.1.1. Distribution of Tribal Population in India	9-11
	1.3.1.2. Distribution of Tribal Population in Rajasthan	11-16
	1.4. Tribal Women and Their Health	16-18
	1.5. Justifications of the Study	18-34
	1.5.1 Need and Significance of the Study on Reproductive Health	18-24
	1.5.2 Justification of Sample (Tribal Women)	24-26
	1.5.3 Justification of Information Education and Communication Package	26-27
	1.5.4 Justification of Variables	27-34
	1.5.4.1. Independent Variables	28-30
	1.5.4.2. Dependent Variables	30-34
	1.6. Statement of Problem	34
	1.7. Objectives of the Study	34-36
	1.7.1 Broad Objective	34
	1.7.2 Specific Objectives	34-36

	1.8. Assumptions of the Study	36
	1.9. Null Hypotheses	36-38
	1.10. Delimitations of the Study	38
	1.11. Operational Definitions	38-39
	1.11.1 Reproductive Health Package	38-39
	1.11.2 Standard Operational Definitions	39
	CHAPTER 2: REVIEW OF LITERATURE	40-78
	2.1 Studies from India	41-64
	2.1.1 Conceptual Reviews on Reproductive Health	41-43
	2.1.2 Empirical Reviews on Reproductive Health	43-64
	2.2 Studies other Countries	65-74
	2.2.1 Conceptual Reviews on Reproductive Health	65-66
	2.2.2 Empirical Reviews on Reproductive Health	67-74
	2.3 Trend Analysis of Literature Reviewed	75-78
	CHAPTER 3: METHODOLOGY	79-127
	3. 1 Preliminary Survey	81-93
	3.1.1 Topic of Preliminary Survey	81
	3.1.2 Objectives of Preliminary Survey	81
	3.1.3 Delimitations of Preliminary Survey	81
	3.1.4 Location of Preliminary Survey	81-82
	3.1.5 Sample and its Selection for Preliminary Survey	82-83
	3.1.6 Tools and Description of Preliminary Survey	83-84
	3.1.7 Data Analysis of Preliminary Survey	84
	3.1.8 Major Findings of Preliminary Survey	84-92
	3.1.9 Conclusion of Preliminary Survey	92-93
	3. 2 Research Design	93-94
	3. 3 Location of the Study	94-96
	3.3.1 Village Profile	94-95
	3.3.1.1 Caste Factor	95

3.3.1.2 Work Profile	96
3.4 Population of the Study	96
3.5 Sample and Its Selection	96-97
3.6 Steps Adopted for Development of IEC package	97-113
3.6.1 Primary and Secondary Resources Review	98
3.6.2 Selection of Reproductive Health Aspects	98-99
3.6.3 Description of Reproductive Health Aspects	99
3.6.4 Selection and Analysis of Content	100
3.6.5 Validation and Modification of Content	100
3.6.6 Development of Instruction Education and Communication Materials	101-110
3.6.6.1 Development of Electronic Media	102-105
3.6.6.2 Development of Print Media	105-109
3.6.6.3 Preparation of Educational Games	109-110
3.6.7 Validation and Modification of Instruction Education and Communication Materials	110
3.6.8 Communication Methods Adopted for Imparting Knowledge	111
3.6.9 Pretesting of Instruction Education and Communication Package	111
3.6.10 Blue Print of Instruction Education and Communication Package	111-112
3.6.11 Preparing Programme Schedule	111
3.7 Construction and Description of Research Tool	113-119
3.7.1 Description of Research Tool	115-117
3.7.2 Translation of Interview Schedule	117
3.8 Validation of Research Tool	118
3.9 Reliability of Research Tool	118-119
3.10 Pretesting of Research Tool	119

3. 11	Procedure of Data Collection	119-121
3. 12	Phases of Experiment	121-122
3.12.1	Pre-test of Experimental Group	121
3.12. 2	Implementation of Package	122
3.12.3	Post-test of Experimental Group	122
3. 13	Methods Used for Data Collection	122
3. 14	Scoring and Categorization	122-126
3.15	Plan for Statistical Analysis	127
CHAPTER 4: RESULTS AND DISCUSSIONS		128-280
4. 1	Background Information	130-156
4.1.1	Demographic Information	132-134
4.1.2	Socio Economic Information	135-142
4.1.3	Basic Reproductive Health Information	142-156
4. 2	Reproductive Health Practices	157-178
4.2.1	Practices Related to Personal Hygiene	157-165
4.2.2	Food and Diet Related Practices	166-167
4.2.3	Practices related to Maternal Care	168-175
4.2.4	Family Planning Practices	176-177
4.2.5	Social and Cultural Practices During Menstruation	177-178
4. 3	Reproductive Health Aspects	179-247
4.3.1	Quantitative Findings	180-242
4.3.1.1	Overall Effectiveness of IEC Package Developed on Reproductive Health Aspects	180-183
4.3.1.2	Overall Effectiveness of IEC Package Developed on Reproductive Health Aspects in relation to Selected Variables	184-189
4.3.1.3	Aspectwise Effectivenesss of IEC Package Developed on “Reproductive Health Aspects”	190-192
4.3.1.4	Aspectwise Effectivenesss of IEC Package Developed on “Reproductive Health Aspects” in	193-242

	relation to selected variables	
	4.3.2 Qualitative Findings (Family Planning)	243-247
	4. 4 Reactions of the respondents towards various Media	248-276
	4.4.1 Reactions of the respondents towards Electronic Media	248-256
	4.4.2 Reactions of the respondents towards Print Media	256-274
	4.4.3 Reactions of the respondents towards Educational Games	274-276
	4.5 Conclusion	277-280
	CHAPTER 5: IMPLICATIONS AND SUGGESTIONS FOR FUTURE RESEARCHES	281-285
	5.1 Implications of the study	281-284
	5.1.1 For Policy Makers	281
	5.1.2 For Educational Institutions	282
	5.1.3 For Tribal People	282-283
	5.1.4 For NGOs and Other Developmental Agencies	283-284
	5.2 Recommendations for Future Researches	284-285
	CHAPTER 6: SUMMARY OF THE STUDY	286-320
	BIBLIOGRAPHY/ REFERENCES	321-343
	APPENDICES	1-157
1.	Letters	1-10
2.	Research Tool (Interview Schedule)	11-59
3.	Maps	60-61
4.	List of Experts and Participants	62-66
5.	Blueprint of IEC Package	67
6.	IEC Package	68-133
7.	Glimpses of Activities Performed by the Respondents	134
8.	Programme Schedule of Package Implimentation	135-139
9.	Media Coverage of Research Work	140
10.	Photographic Profile	141-157
