Acknowledgement

I express my profound gratitude and heartful regards to my learned teacher and guide Dr. K.N. Uttam, Department of Physics, University of Allahabad, under whose able and worthy guidance and constant supervision I had the opportunity to carry out this work.

I would like to express my gratitude to Prof. Indira Mehrotra, Head, Department of Physics, University of Allahabad, Allahabad for constant encouragement during various stages of this research work.

I express my special thanks to Dr S M Sharma, Head and Dr M.N Deo, High Pressure Physics Division, BARC, Trombay for providing laboratory facility. I am also thankful to Dr M D Saksena, and Dr Sunanda, BARC, Trombay for their helpful discussion regarding Se$_2$ molecule.

I express my sincere thanks to Dr M M Joshi for their valuable suggestion & help during academic discussions.

My heartfelt thanks to Prof. S K Kor, Prof. Hari Prakash, Prof Pradeep Kumar, Prof. Ranjana Prakash, Prof. Vinod Kumar, Prof. A. K. Rai and Prof. R. K. Tripathi for their personal attention and encouragement.

I am highly grateful to my friends Shipra Tiwari, Rupali Mishra and colleagues Dr. Santosh Kumar, Shuchi Srivastava & Renu Soingh.

My parents, sister & brother played an important role in this research work. They were the ones who encouraged me to peruse science in my early childhood. I wish express my deep gratitude to them.

I thank Laxmi didi, Vartika & Rahul for providing me homely atmosphere during my research work.

Finally I must also thank to all my teachers who has instilled and implanted the sprit and the ever increasing zeal, is not only limited to the completion of this proposition, but will go a long way in my future life.
