**List of Tables**

Table 3.1: Dielectric parameters for systems calculated using TDR technique and Compared with literature 63

Table 4.1: Properties of Tertiary Butyl Alcohol 69

Table 4.2: Dielectric Relaxation Parameters for aqueous solution of TBA at different temperatures 77

Table 4.3: Enthalpy of activation and entropy of activation for aqueous TBA 80

Table 4.4: Effective Kirkwood correlation factor ($g_{\text{eff}}$) for aqueous solutions of TBA 83

Table 5.1: Properties of 2-Butanol 97

Table 5.2: Dielectric Relaxation Parameters for aqueous solution of 2-butanol at different temperatures 103

Table 5.3: Enthalpy and entropy of activation for aqueous solution of 2-Butanol 107

Table 5.4: Effective Kirkwood correlation factor ($g_{\text{eff}}$) for aqueous solutions of 2-Butanol 110

Table 6.1: Properties of 1-Butanol 122

Table 6.2: Dielectric Relaxation Parameters for aqueous solution of 1-butanol at different temperatures 128

Table 6.3: Enthalpy and entropy of activation for aqueous solution of 1-Butanol 131

Table 6.4: Effective Kirkwood correlation factor ($g_{\text{eff}}$) for aqueous solutions of 1-Butanol 134

Table 7.1: effective Kirkwood correlation factor ‘$g_{\text{eff}}$’ for liquids at different Temperatures 152
