Acknowledgement

I am indebted to my guide Dr. B. P. Ronge for compassionate support in maintaining my confidence during hard time and giving valuable touch to the work through his experience and guidance. His constant motivation and suggestions have been instrumental in completion of the present work.

I cannot forget to express my deep sense of gratitude to Late Dr. M. S. Pawar for his wholehearted support in earlier stage. I am indebted to Dr. P. R. Kulkarni and Dr. S. K. Dixit for their continuous motivation and inspiration. The fruitful technical discussions, with Mr. Prasad Rai and Prof. C. V. Pande regarding CFD analysis were useful in maintaining the acceleration of my research. I am also thankful to my colleagues Dr. P. S. Kachare, Dr. R. R. Ginde, Dr. A. B. Shinde, Mr. R. S. Mathapati for their help in compilation of this thesis. I am also thankful to Prof. Karan Patil and my students Mr. Akash Chougule, Mr. Pratik Choradiya and Ms. Prerana Choradiya for their help during field visits and experimental work. I am thankful to our librarian Mr. S. M. Bagal and all library staff for their prompt service in providing related literature. I am also thankful to Mr. N. S. Pathan, Librarian, Vasantdada Sugar Institute, Pune and Dr. B. G. Gaikwad, Regional Sugarcane and Jaggery Research Centre, Kolhapur for providing valuable technical information.

I am thankful to our University Authorities and Staff, Institute Management, Principal of our college and HOD of Mechanical Department for their support throughout the research work. I cannot forget to thank all my colleagues, students and staff for their support.

Without the blessings of my parents it would not have been possible to complete this work. I am thankful to my wife Shubhangi for her strong support during this work. I should not forget contribution of my sons Suraj and Sarang for their wholehearted support and patience during the period of study.

Mr. S. N. Kulkarni
